The main issue with HIV and AIDS is inequalities; the communities affected are disproportionately distributed among the Global South. World AIDS Day takes place every year on the 1st of December and was founded in 1988, making it the first global health day to be established. This year, the theme of World AIDS Day is equality. Tackling the inequalities surrounding HIV testing, prevention, care, and stigma among marginalized populations is the only way to not fall behind the targets of the third sustainable development goal of ending the HIV/AIDS epidemic by 2030.
