left in the world A pristine productive fishery Bristol Bay is now at great risk The proposed Pebble Mine project could undermine the very spawning grounds that make this great run possible In his search to discover why this precious renewable resource isn't better protected Greenberg encounters a shocking truth the great majority of Alaskan salmon is sent out of the country much of it to Asia Sockeye salmon is one of the most nutritionally dense animal proteins on the planet yet Americans are shipping it abroad Despite the challenges hope abounds In New York Greenberg connects an oyster restoration project with a vision for how the bivalves might save the city from rising tides In the Gulf shrimpers band together to offer local catch direct to consumers And in Bristol Bay fishermen environmentalists and local Alaskans gather to roadblock Pebble Mine With American Catch Paul Greenberg proposes a way to break the current destructive patterns of consumption and return American catch back to American eaters The Washington Post Americans need to eat more American seafood It's a point Greenberg makes compellingly clear in his new book American Catch The Fight for our Local Seafood Greenberg had at least one convert me Jane Brody New York Times Excellent The Los Angeles Times If this makes it sound like American Catch is another of those dry haranguing issue driven books that you read mostly out of obligation you needn't worry While Greenberg has a firm grasp of the facts he also has a storyteller's knack for framing them in an entertaining way The Guardian UK A wonderful new book Tom Colicchio This is on the top of my summer reading list A Fast Food Nation for fish
