## 4. Objective of Research

The main aim of this project is to enhance the features of the current IP telephone used in the department. This will involve fixing certain features of the phone which are not suitable for our purposes such as improving the display. Encryption may also be added to the phone in conjunction with a master's student. Another feature the phone lacks is the ability to connect over a PPPoE network and this may also be rectified. The following needs to be researched in order to accomplish these objectives: What changes will have to be made to the interface (keypad and display)
