2012 And The End Of Institutional Evil Chapter 2 Who Is

Jessie Hohmann, Daniel Joyce

2012 And The End Of Institutional Evil Chapter 2 Who Is:

Crime Economics Clotilde Champeyrache, 2024-11-18 Presenting an original institutional approach this book makes the case for an empirically based crime economics that aims to guide the fight against crime within a logic of reasonable capitalism and the common good Historically it was not until a seminal article by Gary Becker that mainstream economists showed any interest in the criminal economy The new field of crime economics was in reality little more than an extension of rational choice theory and cost benefit analysis to a new subject However reducing crime to a single profit perspective has proven reductive it ignores for example crime that affects public order e g vandalism and the individualistic approach does not seem to be very relevant when dealing with criminal organizations Criminal phenomena therefore call for a renewal of the analysis Inspired in particular by the work of Veblen and Commons this book calls for a renewal of the analysis It argues for an institutional focus on the integration of individuals into organizational and institutional contexts which provides a richer analysis of criminal choices and reintroduces collective and power seeking motivations The study of illegal markets uses an evolutionary approach to highlight their dynamic cooperative and interconnected dimensions The question of criminal infiltration of the legal economy is assessed beyond the issue of money laundering to include territorial control strategies Finally a review of the liberal economic discourse and the values it embodies raises questions about the responsibility of the legal economy and its players in the expansion of the criminal economy as well as the risk of a blurring of the boundary between legality and illegality This renewed global vision is useful both for those who study criminal issues students and researchers in economics criminology law sociology and political science and for practitioners *Participation in Crime* Alan Reed, Michael Bohlander, 2016-05-13 Following on from the earlier edited collection *Loss of Control and Diminished Responsibility* this book is the first volume in the *Substantive Issues in Criminal Law* series It serves as a leading point of reference in the area relating to participation in crime and identifies the need for a consistent approach to the doctrinal and theoretical underpinnings of complicity liability With a section on the UK analysing points of current interest the book also has a large comparative section dealing with foreign jurisdictions and examines on the basis of a unified research grid how different legal systems treat core issues of participation in the context of criminal law This book is a valuable reference resource for those in the criminal justice community in the UK and abroad and for academics the judiciary and policy makers

The Whedonverse Catalog Don Macnaughtan, 2018-06-04 Director producer and screenwriter Joss Whedon is a creative force in film television comic books and a host of other media This book provides an authoritative survey of all of Whedon's work ranging from his earliest scriptwriting on *Roseanne* through his many movie and TV undertakings *Toy Story* *Buffy the Vampire Slayer* *Angel* *Firefly* *Serenity* *Dr Horrible* *The Cabin in the Woods* and *Agents of S.H.I.E.L.D.* to his forays into the *Marvel Cinematic Universe* The book covers both the original texts of the *Whedonverse* and the many secondary works focusing on Whedon's projects including about 2000 books essays articles documentaries and

dissertations **International Law's Objects** Jessie Hohmann, Daniel Joyce, 2018 International law's rich existence in the world can be illuminated by its objects International law is often developed conveyed and authorized through its objects and or their representation From the symbolic the regalia of the head of state and the symbols of sovereignty to the mundane a can of dolphin safe tuna certified as complying with international trade standards international legal authority can be found in the objects around us Similarly the practice of international law often relies on material objects or their image both as evidence satellite images bones of the victims of mass atrocities and to found authority for instance maps and charts This volume considers these questions firstly what might the study of international law through objects reveal What might objects rather than texts tell us about sources recognition of states construction of territory law of the sea or international human rights law Secondly what might this scholarly undertaking reveal about the objects as aims or projects of international law How do objects reveal or perhaps mask these aims and what does this tell us about the reasons some physical or material objects are foregrounded and others hidden or ignored Thirdly what objects icons and symbols preoccupy the profession and academy The personal selection of these objects by leading and emerging scholars worldwide will illuminate the contemporary and historical fascinations of international lawyers By considering international law in the context of its material culture the authors offer a new and exciting theoretical perspective on the subject With an image of each object reproduced in full colour the book will make an engaging and interesting read for scholars practitioners and students alike

Toxic Leaders and Tough Bosses Teresa A. Daniel, 2024-03-18 Shortlisted in the International Business Book category at the Business Book Awards in partnership with Pathway Group 2025 Finalist in the Leadership HR and Employee Development category of the Goody Business Book Awards 2024 Toxic work culture is driving away 1 in 5 employees at an annual cost of US 44.6 billion to American organizations Yet ironically toxic leaders often achieve stellar financial profits continue to get promoted and remain in their leadership roles In **Toxic Leaders and Tough Bosses: Organizational Guardrails to Keep High Performers on Track** employment law attorney Teresa A Daniel JD PhD draws upon numerous studies and interviews to show the real devastating impact of toxic workplace culture and why leaders must care This book discusses what signs to look out for in a toxic workplace factors that promote toxic behavior types of leaders and how they impact their organization the role of HR in managing employee wellbeing and what to look out for in exceptional leaders With evidence based strategies for building stronger workplace culture including tools to help organizations develop better leaders and managers it makes a compelling case for eradicating toxic leaders as a priority **Toxic Leaders and Tough Bosses** is for organizational leaders mid level managers supervisors HR practitioners and anyone else invested in implementing new tried and tested ideas to improve their organization's culture to create and sustain its optimum success **Rethinking the French New Right** Tamir Bar-On, 2013-04-12 This book focuses on the philosophy politics and impact of the New Right which originated in France and has since influenced activism ideology and policy in a number of European countries This

book explores the idea that revolutionaries do not necessarily need to come from the left nor use arms in order to overturn liberal democracy In the post World War Two era the extremists of the revolutionary right took three different paths 1 parliamentary 2 extra parliamentary and 3 metapolitical The New Right nouvelle droite ND in France took the metapolitical path but that did not mean it abandoned its revolutionary desire to smash liberal democracy throughout Europe The book examines four interpretations of the New Right These interpretations include the following 1 The New Right as a fascist or quasi fascist movement 2 The New Right as a challenge to the traditional right left dichotomy which has structured European political debates for more than 200 years 3 The New Right as an alternative modernist movement which rejects liberal and socialist narratives of modernity accepts the technical but not political or cultural effects of modernity and longs for a pan European political framework abolishing liberal multiculturalism and privileging ethnic dominance of so called original Europeans and 4 The New Right as a variant of political religion and conversionary processes The book concludes by analysing the positions cultural and political impact and relationship to democracy of the New Right This work will be of great interest to students and scholars of racism fascism extremism European politics French politics and contemporary political theory

The Politics of the Presidency John Anthony Maltese, Andrew Rudalevige, Joseph A. Pika, 2025-11-20 Get insightful coverage and analysis of the U S presidency with this comprehensive text Never losing sight of the foundations of the office The Politics of the Presidency maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course In this Revised Eleventh Edition Maltese Rudalevige and Pika thoroughly analyze the change and continuity following the November 2024 presidential election

Redefining the Market-State Relationship Ioannis Glinavos, 2013-10-01 This book offers an interdisciplinary overview of the role of law in modern capitalism in the context of financial crisis In this work the reader will find a discussion of key issues relevant to the crisis that have occupied the pages of the financial press since 2007 including an assessment of the meltdown of the sub prime mortgage market the credit crunch the European debt crisis and the turmoil in Greece plus a series of theoretical contributions that are aimed to challenge perceptions of the market state relationship and the place of law within it The book includes a methodological defence of the state market dichotomy a critique of the tenets of neoclassical economics and an evaluation of what the financial crisis heralds for the future of the political economy of western democracies Ioannis Glinavos argues that it is a mistake to associate markets with freedom and states with oppression and suggests that more choice for consumers can and does mean less choice for citizens The book suggests that a new social contract is needed to ensure the survival of both capitalism and democracy In contributing a unique legal perspective to the underlying dynamics of the financial crisis this book will be valuable to scholars and students of regulation financial markets and economic development
