Introduction

In an attempt to provide some useful and practical information on what the multimedia development process is we developed this web site. Our purpose is to inform students who wish to pursue a career in multimedia of the skills and knowledge needed.

Multimedia development encompasses many different aspects. Interactive multimedia is becoming increasingly popular in education, entertainment, and business. Because of the capability of incorporating various media, and of supporting interactivity and learner control, multimedia is often used in delivering instruction. Interactive multimedia technology has potential for enhancing learning. Furthermore, the World Wide Web technology with its interactive multimedia capability has been perceived to be one of the most promising technologies in the future. While there is a general consensus among educators that interactive multimedia has the potential for enhancing learning, educators also agree that having well-designed multimedia software is critical in order for

Interactive Multimedia Design And Production Process:

Designing and Producing Media-Based Training Steve Cartwright, G Phillip Cartwright, 2012-07-26 Training and informational programming has always been an important application of video and is one of the most important applications for multimedia. The use of technology in training for industry, government, health care, and education has increased dramatically in recent years. Video, text, graphics, animation, and sound are combined in various ways to convey concept, attitude, and technical skill. *Designing and Producing Media Based Training* examines why, how, and when you can use technology for training and describes successful approaches to creating effective technology-based training. It describes the instructional design process, scriptwriting, multimedia authoring, media production, and new technology-based training delivery systems. Among the many topics covered are training delivery trends, the training design process, defining the audience, reproduction, program design, and production design, scripting, and storyboarding, uses of light and color. Written by a highly experienced training consultant, *Designing and Producing Media Based Training* will provide training professionals, corporate managers, multimedia designers and producers, and videomakers with tools for designing effective technology-based training programs.
