**Macroeconomics for Professionals** Leslie Lipschitz, Susan Schadler, 2019-01-23. Understanding macroeconomic developments and policies in the twenty-first century is daunting. Policy makers face the combined challenges of supporting economic activity and employment, keeping inflation low, and risks of financial crises at bay, and navigating the ever-tighter linkages of globalization. Many professionals face demands to evaluate the implications of developments and policies for their business, financial, or public policy decisions. *Macroeconomics for Professionals* provides a concise, rigorous, yet intuitive framework for assessing a country's macroeconomic outlook and policies. Drawing on years of experience at the International Monetary Fund, Leslie Lipschitz and Susan Schadler have created an operating manual for professional applied economists and all those required to evaluate economic analysis.

**The Story of Philippine Central Banking** Jose Y. Dalisay (Jr.), 2019. **Reforming WTO Rules on State-Owned Enterprises** Yingying Wu, 2019-01-28. This book argues that the trade-distorting effects of advantages associated with SOEs are more severe from an economic perspective and the behavior of SOEs after receiving advantages is of more concern compared to private-owned enterprises (POEs). The premise is that the existence of SOEs per se is not the essential problem; rather, the underlying problems are i) the disproportionate granting of advantages to SOEs compared to POEs and ii) the behavior of SOEs once they receive advantages. The book offers a systematic analysis focusing on the various advantages granted to SOEs and their subsequent behavior. Its detailed analysis reveals the inadequacy of current WTO rules and is complemented by a number of concrete proposals.
