Women in the Socratic Tradition Carolina Araújo,2025-08-21 Socrates represents an important turning point not only in the history of philosophy but also in the morality of gender inequality for he advanced the unprecedented thesis that the virtue of men and women is the same The arguments supporting such a thesis however are controversial different authors understand Socrates legacy differently the arguments do not necessarily account for the universality implied in the thesis and in challenging conventions Socratic literature tends to blur gender distinctions Be that as it may these sources undeniably present women as exemplars of the philosophical life This volume brings together a group of highly qualified scholars to provide a careful analysis of this evidence and a detailed assessment of the Socratic debate on gender divided into three sections Socratic Women Socratics on Women and Socratic Philosophy as a Woman It sheds light on a topic rarely explored in scholarship on Socratism women both as philosophers and as a philosophical motif

Plato's Symposium Plato,

Plato's account of an important dialogue on the nature of love between Phaedrus, Pausanias, Eryximachus, Aristophanes, Agathon, Socrates, and Alcibiades. *Plato's Symposium* Stanley Rosen, 1968 **Socrates, Lucretius, Camus** Fred Wilson, 2001 The present essay attempts to do something that has not been done in the recent literature concerning death: namely, to link reasons for attitudes towards death to reasons for different metaphysical positions on human being and the place of human being in the universe. Most recent discussions of death either place the topic directly in the context of nothing more than ethical considerations continued on the next page. **Phaedrus** Plato, 1995-03-15 A superb translation that captures the rhetorical brilliance of the Greek. The translation is faithful in the very best sense: it reflects both the meaning and the beauty of the Greek text. The footnotes are always helpful, never obtrusive. A one-page outline is useful since there are no editorial additions to mark major divisions in the dialogue. An appendix containing fragments of early Greek love poetry helps the reader appreciate the rich and perhaps elusive meaning of eros. The entire Introduction is crisply written, and the author's erudition shines throughout without a trace of pedantry. This is an excellent book that deservedly should find wide circulation for many years to come. Tim Mahoney, University of Texas at Arlington. *Philosophy* Brooke Noel Moore, Kenneth Bruder, 2001 One of the most widely adopted texts in the field. *Philosophy: The Power of Ideas* offers a topical introduction to philosophy within an overarching historical framework. The goal of the authors is to make philosophy understandable while not oversimplifying the material, showing that philosophy contains powerful ideas that affect the lives of real people. **The Fiction of Enlightenment** Heidi Bostic, 2010 This book argues that women authors of the French eighteenth century claimed reason and contributed to Enlightenment. It begins by framing the Enlightenment as fiction in two senses: first, what passes under the name of Enlightenment in much current critical discourse is a fiction or a caricatured construct; second, works of fiction can illuminate Enlightenment. The book offers fresh readings of texts by the three most prominent women among eighteenth-century writers in French: Françoise de Graffigny, Marie Jeanne Riccoboni, and Isabelle de Charrière. These authors challenged the widely held idea that women's reason was inferior to men's. Literary forms—novels, stories, plays, essays, and letters—allowed these authors to approach the question of reason in particularly nuanced ways. Faithful to the eighteenth century, this project is also relevant to the twenty-first. Book Jacket. [Encyclopedia of Human Emotions](#) David Levinson, James J. Ponzetti, Peter F. Jorgensen, 1999 This work brings together information from across the disciplines to look at what is known about the nature, cases, expression, and societal role of human emotions throughout history and across cultures.
