**English Studies Beyond the 'Center'** Myles Chilton, 2015-11-06 This book addresses the shape of English studies beyond the center by analyzing how the discipline has developed and by considering how lessons from this analysis relate to the discipline as a whole The book aims to open a cross disciplinary conversation about the nature of the English major in both non Anglophone and Anglophone countries by addressing the tensions between language and literature pedagogy the relevance of a focus on hyper canonical Anglophone literature in a world of global Englishes world literature and multilingual students and by reflecting on the necessary contingency and cross purposes of blended literature and language classrooms Many of the book's points of discussion arise from the author's experience as an English professor in Japan where the particularities of English language and literature pedagogy raise significant challenges to Anglo centric critical and pedagogical assumptions

*English Studies Beyond the Center Teaching Literature and the Future of Global English* therefore argues that English literature must make

a case for itself by understanding its place in a newly configured discipline Issues discussed in the book include English language and literature pedagogy in Japan The modes through which EFL and English literary studies converge and diverge Globalized English beyond the Anglo American perspective English classroom practices particularly in Japan Journal of Commonwealth and Postcolonial Studies ,2006

**Beyond Post-colonialism. The construction of Identities Through Muting and Absenting of the Other.** Ahmed Musa,2021-07-19 Essay from the year 2021 in the subject Cultural Studies Middle Eastern Studies grade 95 language English abstract This paper is an attempt to trace the absence of the West in the cultural creative modes of knowledge productions that emerged post the Arab social movements in Tunisia and Egypt Whenever we discuss or approach the subject of the construction of identities in post colonial studies the West who I represent here as the other is largely but not entirely perceived as consolidating against or formulating the identities of the East or the identities of the Rest This is evident in not only the revered works of prominent theorists like Edward Said Homi Bhabha and Gayatri Spivak but also in the works of other post colonial theorists and writers that emerged afterward However during the Arab Spring one of the most solidaristic and transcultural Arab movements that searched for more stable governing models at crossroads of global regional and national challenges creative new forms of formulating identities beyond post colonial theory emerged such as the Arab Spring poetic slogans as creative modes of knowledge production which moved away from the previous discourse of the post colonial Arab intellectuals built on a bifurcation identity and also in tandem revolting the internal regimes of knowledge production The new forms of cultural productions not only represented moments of self emergency social solidarity and construction of the self during traumatic moments but also in tandem absented and muted the West and East binaries and antithesis of representation

**Beyond Columbine** Julie A. Webber,2017 NOW IN PAPERBACK School violence has become our new American horror story but it also has its roots in the way it comments on western values with respect to violence shame mental illness suicide humanity and the virtual Beyond Columbine School Violence and the Virtual offers a series of readings of school shooting episodes in the United States as well as similar cases in Finland Germany and Norway among others and their relatedness The book expands the author s central premise from her earlier book Failure to Hold which explores the hidden curriculum of American culture that is rooted in perceived inequality and the shame rage and violence that it provokes In doing so it goes further to explore the United States outdated perceptual apparatus based on a reflective liberal ideology and presents a new argument about proprioception the combined effect of a sustained lack of thought non cognitive in action that is engendered by digital media and virtual culture The present interpretation of the virtual is not limited to video games but encompasses

the entire perceptual field of information sharing and media stylization e.g. social networking, television, and branding. More specifically, American culture has immersed itself so thoroughly in a digital world that its violence and responses to violence lack reflection to the point where it confuses data with certainty. School-related violence is presented as a dramatic series of events with *Columbine* as its pilot episode. **Beyond Postcolonialism** Jasbir Jain, 2006. Study on post-1950 Indian fiction.

**The Intimacies of Hatred** Rani Jean Neutill, 2007. *Kwasi Wiredu and Beyond* Sanya Osha, 2005. Kwasi Wiredu is one of Africa's foremost philosophers whose thinking on conceptual decolonization in contemporary African systems of thought is well known. Wiredu advocates a re-examination of current African epistemic formations in order to subvert unsavoury aspects of tribal cultures embedded in modern African thought as well as deconstruct the unnecessary Western epistemologies to be found in African philosophical practices. In this book, Sanya Osha argues that Wiredu's apparent schematism falls short as a viable project and suggests that because of the very hybridity of postcoloniality projects seeking to retrieve the precolonial heritage are bound to be marred at several levels. Language itself presents a major problem which Wiredu's thesis does not fully address. **BOOK JACKET** *Panjab University Research Bulletin*, 2007. *Diaspora*, 2006. *Beyond Dichotomies* Elisabeth Mudimbe-Boyi, 2012-02-01. *Beyond Dichotomies* examines literary texts, cultural production, and concrete local practices within the context of modernity and globalization by focusing on the ways in which some societies confront the complexity of cultures reflected in new forms of knowledge, narratives, and subjectivities. The contributors explore how particular societies negotiate the relations between the global and the local and use a geographical comparative perspective combined with an interdisciplinary approach to offer a diversity of views and illuminate the cultural impact of globalization on different societies around the world: Africa, Asia, Europe, and the Americas. These societies face complex questions regarding people's histories, identities, and cultures that embody the ambivalence, contradictions, and anxieties generated by the process of globalization. The contributors provide a compelling conclusion for a rethinking and reconfiguration of cultures and intercultural relations in today's global world in which dichotomized representations coexist with a discourse of globalization. **Moving Beyond Prozac, DSM, and the New Psychiatry** Bradley Lewis, 2006-01-30. A spirited critique of the practice of psychiatry in the United States that argues for the democratization of psychiatric knowledge.
