Mass Spectrometry Imaging in Food Analysis Leo M.L. Nollet, 2020-04-29 Food contains various compounds and many technologies exist to analyze those molecules of interest However the analysis of the spatial distribution of those compounds using conventional technology such as liquid chromatography mass spectrometry or gas chromatography mass spectrometry is difficult Mass spectrometry imaging MSI is a mass spectrometry technique to visualize the spatial

distribution of molecules as biomarkers metabolites peptides or proteins by their molecular masses Despite the fact that MSI has been generally considered a qualitative method the signal generated by this technique is proportional to the relative abundance of the analyte and so quantification is possible Mass Spectrometry Imaging in Food Analysis a volume in the Food Analysis and Properties Series explains how the novel use of matrix assisted laser desorption ionization mass spectrometry imaging MALDI MSI will be an ideal complementary approach MALDI MSI is a two dimensional MALDI MS technology that can detect compounds in a tissue section without extraction purification separation or labeling It can be used to visualize the spatial distribution of biomolecules in foods Features Explains the novel use of matrix assisted laser desorption ionization mass spectrometry imaging in food analysis Describes how MALDI MSI will be a useful technique for optical quality assurance Shows how MALDI MSI detects food contaminants and residues Covers the historical development of the technology While there are a multitude of books on mass spectrometry none focus on food applications and thus this book is ideally suited to food scientists food industry personnel engaged in product development research institutions and universities active in food analysis or chemical analysis Also available in the Food Analysis and Properties Series Food Aroma Evolution During Food Processing Cooking and Aging edited by Matteo Bordiga and Leo M L Nollet ISBN 9781138338241 Ambient Mass Spectroscopy Techniques in Food and the Environment edited by Leo M L Nollet and Basil K Munjanja ISBN 9781138505568 Hyperspectral Imaging Analysis and Applications for Food Quality edited by N C Basantia Leo M L Nollet and Mohammed Kamruzzaman ISBN 9781138630796 For a complete list of books in this series please visit our website at www.crcpress.com Food Analysis Properties book series CRCFOODANPRO **Indian Books in Print**, 1996 **Organic Chemistry 11th Edition CA Edition with Sapling 1 Semester RC Set** T.
