

Pragmatics & Discourse Analysis

- Pragmatics is the study of language usage from a functional perspective and is concerned with the principles that account for how meaning is communicated by the speaker (writer) and interpreted by the listener (reader) in a certain context.
- Like pragmatics, text analysis is also concerned with language used in particular contexts. It is the linguistic analysis of naturally occurring connected spoken or written texts.
- In other words, it is the study of linguistic units larger than sentences or clauses.
