Christopher P. Garside,2009-12 If you are looking to reconcile the battle between your faith and evolution this book is for you  
I want to give ideas to help stimulate new conversations and to help reconcile the debate between creation and evolution This  
book will show where the creation story in the Bible may be describing evolution I believe science does line up with the Bible  
In this book I go through every verse in the creation story and show how science has evidence it could be true I want to show  
it is ok to believe both Evolution and the Creation Story at the same time All truth is God s truth therefore any truth found by  
science is God s truth Evolution has gotten away from its roots to search for God s Greater Glory We should embrace science  
to help show the existence of God for non believers who need evidence to believe He exists I hope you enjoy the read I had a  
blast writing it      [Miller & Levine Biology](#) Kenneth Raymond Miller,Joseph S. Levine,2010      *Growing Up with Science*
