Knowledge for a Sustainable World Tor Halvorsen,Hilde Ibsen,2015-12-07 The search for answers to the issue of global sustainability has become increasingly urgent In the context of higher education many universities and academics are seeking new insights that can shift our dependence on ways of living that rely on the exploitation of so many and the degradation of so much of our planet This is the vision that drives SANORD and many of the researchers and institutions within its network Although much of the research is on a relatively small scale the vision is steadily gaining momentum forging dynamic collaborations and pathways to new knowledge The contributors to this book cover a variety of subject areas and offer fresh insights about chronically under researched parts of the world Others document and critically reflect on innovative approaches to cross continental teaching and research collaborations This book will be of interest to anyone involved in the transformation of higher education or the practicalities of cross continental and cross disciplinary academic collaboration The Southern African Nordic Centre SANORD is a network of higher education institutions from Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe Universities in the southern African and Nordic regions that are not yet members are encouraged to join

Uncommon Wealths in Postcolonial Fiction Helga Ramsey-Kurz,Melissa Kennedy,2017-11-01 *Uncommon Wealths in Postcolonial Fiction* engages urgently with wealth testing current assumptions of inequality in order to push beyond reductive contemporary readings of the gaping abyss between rich and poor Shifting away from longstanding debates in postcolonial criticism focused on poverty and abjection the book marshals fresh perspectives on material spiritual and cultural prosperity as found in the literatures of formerly colonized spaces The chapters follow the money to illuminate postcolonial fiction s awareness of the ambiguities of wealth acquired under colonial capitalism and transmuted in contemporary neoliberalism They weigh idealistic projections of individual and collective wellbeing against the stark realities of capital accumulation and excessive consumption They remain alert to the polysemy suggested by *Uncommon Wealths* both registering the imperial economic urge to ensure common wealth and referencing the unconventional or non Western the unusual even fictitious and contrasting privately coveted and exclusively owned wealth with visions of a shared good Arranged into four sections centred on aesthetics injustice indigeneity and cultural location the individual chapters show how writers of postcolonial fiction including Aravind Adiga Amit Chau dhuri Anita Desai Patricia Grace Mohsin Hamid Stanley Gazemba Tomson Highway Lebogang Matseke Zakes Mda Michael Ondaatje Kim Scott and Alexis Wright employ prosperity and affluence as a lens through which to re examine issues of race ethnicity gender and family the cultural value of heritage land and social cohesion and such conflicting imperatives as economic growth individual fulfilment social and environmental responsibility and just distribution

 topple readers assumptions about the fellow travelers with whom we share our lives our streets and fields and our planet
 Fifteen contributors from various countries reveal the aesthetic ethical and psychological complexities of our multispecies
 relationships demonstrating the richness of ecocritical animal studies **Things Change** Robert Ross,2023-05-08 Since the
 early nineteenth century the things which Black South Africans have had in their homes have changed completely They have
 adopted things like tables chairs knives forks spoons plates cups and saucers iron pots beds blankets European clothing and
 later electronic apparatus Thus they claimed modernity respectability and political inclusion This book is the first systematic
 analysis of this development It argues that the desire to possess such goods formed a major part of the drive behind the anti
