Writing Learning Objectives: A Basic Guide

Dr Edmund Bilon,2019-02-17 Virtually all instructors have learning objectives in mind when developing a course They know the skills and knowledge that students should gain by the end of each instructional unit However many instructors are not in the habit of writing learning objectives and the objectives remain implicit The full power of learning objectives is realized only when the learning objectives are explicitly stated Writing clear learning objectives is therefore a critical skill To sharpen this skill so that your objectives are consistently precise measurable and student centered we recommend that you follow the audience behavior condition degree ABCD method Every learning objective must have an audience and a stated behavior The condition and degree are not applicable to every learning objective but they can make your objectives more precise as long as they are not forced into place Learning objectives help anchor assessments and activities in evidence based course design By aligning objectives assessments and activities we can collect data on student performance in achieving those objectives This information helps students and instructors to monitor student progress At a broader level student performance data helps learning scientists to improve theories of learning which in turn helps learning engineers to make interactive improvements to the course Creating concise objectives is key to developing purposeful and systematic instruction One of the most prevalent conclusions that educators have drawn from the large body of instructional research is that instruction needs to be tailored to support concrete instructional objectives and to meet specific learning outcomes
