*The Beginner's Guide to Engineering: Chemical Engineering* John T. Stimus, 2023-03-09 The Beginner's Guide to Engineering series is designed to provide a very simple non technical introduction to the fields of engineering for people with no experience in the fields Each book in the series focuses on introducing the reader to the various concepts in the fields of engineering conceptually rather than mathematically These books are a great resource for high school students that are considering majoring in one of the engineering fields or for anyone else that is curious about engineering but has no background in the field Books in the series 1 The Beginner's Guide to Engineering Chemical Engineering 2 The Beginner's Guide to Engineering Computer Engineering 3 The Beginner's Guide to Engineering Electrical Engineering 4 The Beginner's Guide to Engineering Mechanical Engineering Toxicological Risk Assessment for Beginners José A. Torres, Sol

Bobst, 2015-03-27 This book serves as a comprehensive introductory guide to the practical aspects of risk assessment Chapters include clearly defined objectives and summaries The book includes hazard identification dose response exposure assessment risk characterization chemical mixtures epidemiology emerging issues and global perspectives with accessible language The book concludes with a set of hypothetical case studies Toxicological Risk Assessment for Beginners aims not to create an expert but rather to provide readers with their first understanding of the risk assessment topic This book was designed with the student in mind We simplify a complex process for beginners and balance theory with practical aspects but remain fluid enough to increase difficulty with case studies By incorporating an action based step by step approach to learning the risk assessment process this book provides its readers with an elementary understanding of how the risk assessment process is initiated developed and finished making it a valuable guide for graduate students post doctoral fellows and early career scientists in industry **Monthly Labor Review** United States.
