Love and Marriage in Africa in the Novels of Elechi Amadi, Buchi Emecheta and Chinua Achebe Dr. Richa Jha, 2022-03-03 The theme of love and marriage in literature is perhaps as old as literature itself Works of literature across borders and genres have worked around these twin themes to give us some of the most memorable tales yet they appear quite neglected by the critics when making a study of African literature The world of literary criticism has witnessed a newfound interest in the African continent which had for a long time been suffering in ignominious darkness yet the majority of critical study is still focused on postcolonial themes and human relationships have largely been ignored The white man's perception and portrayal of Africa as a land of savages devoid of finer emotions could be a major influence in this regard This study strives to prove that the Africans have always had a rich history and culture of interpersonal relationships and the twin themes of love and marriage run across their literature justifying their claim to being as capable of harboring finer emotions as any other civilization of the world The novels under study in this research work present the importance of love in various aspects like the man woman relationship parent child relationship and an individual's love for his native land Various types of matrimonial alliances with the different aspects of an African marriage such as settling of marriage settlement and payment of the bride price gender equations polygamy widow remarriage etc have all been studied in the backdrop of the three novels taken under consideration This research work based on the novels of Elechi Amadi Buchi Emecheta and Chinua Achebe studies the representation of love and marriage in African literature as an important and recurrent theme that touches upon other aspects of the society like class division human relationships social beliefs myths superstition and most importantly the gender perspectives

Pragmatics And Literature Hanip Pujiati, 2026-01-15 This book is a timely exploration of how literature continues to serve as a living testament to human experience in an era of rapid technological cultural and social transformation Far from being a relic of the past literature is presented as a dynamic space where identity values and meaning are negotiated challenged and reimagined Through the lens of pragmatics the book emphasizes that language in literature is not static but a powerful tool for making sense of life enabling readers to uncover implied meanings interpret intentions and engage with texts beyond their literal surface The book unfolds across six interconnected parts each offering a vital dimension of literary study It begins by introducing the relationship between pragmatics and literary meaning showing how context and inference shape communication in texts It then lays the conceptual foundations for critical and empathetic reading before guiding readers through the conventions and structures of literary genres The discussion expands to include extrinsic elements such as historical cultural and ideological contexts situating literature within broader social narratives Practical strategies for teaching pragmatic meaning such as implicature speech acts and social context are offered to enrich classroom practice Finally the book highlights the role of readers as active interpreters exploring how performance and ethical engagement influence the experience of literature Written in an accessible style the book is designed for a wide

audience university students beginning their literary journey educators seeking innovative pedagogical approaches and lifelong readers wishing to deepen their connection with texts Each chapter combines clear explanations relevant examples and reflective prompts supported by visual aids such as concept maps annotated texts and exercises for both individual and classroom use Ultimately Pragmatics and Literature is not only about reading texts but about reading life through literature It invites readers to reflect to question and to embrace multiple perspectives reminding us that stories matter not only for what they say but for how they help us see ourselves and others more clearly As both a guide and a companion the book challenges us to read with heart mind and conscience cultivating empathy critical insight and ethical awareness in a world that increasingly demands thoughtful engagement

The Complex Interplay between Power, Politics, and African Agency Serges Djoyou Kamga, 2024-11-15 Using Toyin Falola's contributing works this book offers a unique perspective on the intricate dynamics of African society to reveal the importance of understanding the role of power politics and African agency in addressing Africa's developmental ills

The Subject of Sovereignty Gregory Feldman, 2023-10-13 Seeking new forms of democracy progressive politics raises a fundamental question what is the alternative to the allegedly coherent self contained liberal subject that represents the project of modernity Exploring the themes of nature race and the divine this book identifies the more realistic alternative in the relational subject a subject that is inseparable from the global field of relations through which it emerges and yet distinct from that field because it lives a life that no one else ever has Recognizing ourselves as such subjects allows us not only to rethink politics but more profoundly to envision sovereignty as the means by which we each rejuvenate ourselves and the polities we constitute with others

Words in Collision Michael L. Ross, 2023-04-15 For centuries English language writers have borrowed words and phrases from other languages in their fictional works Words in Collision explores this tradition of language mixing and its consequences Returning to Shakespeare's Henry V Michael Ross asks why writers employ foreign phrases in their English language texts why this practice continues and what it means He finds that the insertion of foreign elements rather than random or arbitrary occurs in literary works that display a self-conscious preoccupation with language in general as a dynamic determinant of social relations Discussing nineteenth century works by Sir Walter Scott Charlotte Brontë and Henry James the book demonstrates how multilingualism connects with themes of cosmopolitanism estrangement and resistance to social convention In the second half of the book the multilingual practices of canonical Anglo American literature are compared with postcolonial texts by Caribbean Nigerian and Indian authors including Chimamanda Ngozi Adichie and Arundhati Roy whose choice of language is fraught with complex moral and artistic implications Ross's readings reveal both crucial departures and surprising underlying continuities in linguistic traditions often thought to be deeply divided in time space and politics The first extended treatment of language mixing in English texts Words in Collision is critical to understanding past practices and future prospects for multilingualism in fiction
