imparts decision making skills      *Collaborative Learning Through Computer Conferencing* Anthony R. Kaye,2012-12-06 The idea for the Workshop on which this book is based arose from discussions which we had when we both attended an earlier and more broadly based NATO Advanced Research Workshop on Computer Supported Collaborative Learning directed by Claire O Malley in Maratea Italy in 1989 We both felt that it would be interesting to organise a second Workshop in this area but specifically concerned with the use of computers and networking telematics as communication tools for collaborative learning outside the formal school setting We were particularly interested in examining the ways in which computer conferencing can be used for collaboration and group learning in the contexts of distance education adult learning professional training and organisational networking And we wanted to ensure that we included in the scope of the Workshop situations in which learning is a primary explicit goal e g an online training programme as well as situations where learning occurs as a secondary even incidental outcome of a collaborative activity whose explicit purpose might be different e g the activities of networked product teams or task groups Another goal was to try to bring together for a few days people with three different perspectives on the use of computer conferencing users researchers and software designers We hoped that if we could assemble a group of people from these three different constituencies we might collectively be able to make a small contribution to real progress in the field      *Resources in Education* ,1998      **The Evolution of Inquiry** Daniel

Callison,2015-05-26 Defining the progression toward inquiry learning this book provides an extensive overview of the past five decades and the evolution of inquiry in science history language arts and information literacy studies Information inquiry is a basic skill for those who examine information as a science and its principles can be applied across the K 12 curriculum Built around reflective reviews of more than two dozen articles from School Library Media Activities Monthly this helpful book shows the evolution adoption and application of the inquiry learning process to the school library teaching learning environment Four levels of inquiry controlled guided open and free are explored in association with the emerging national Common Core curriculum and the Standards for the 21st Century Learner from the American Association of School Librarians With the growing interest in the concept of inquiry and inquiry learning you may find yourself needing to distinguish between the existing models and their applications To help you do that the book provides you with rich historical context that clarifies the models and it also projects future applications of inquiry and learner centered teaching through school information literacy programs These new applications such as graphic inquiry argumentation for inquiry and the student as information scientist offer tangible examples you can use to enrich the expanding information literacy curriculum
