

General Psychology Notes - Memory

I. Basic Memory Processes:

A. Encoding - change information into a form that the memory system uses

B. Storage - maintaining information over a period of time

C. Retrieval - locating information being stored in memory and bringing into awareness

II. Three Memory Systems

- **Sensory Memory** - sensory inputs are briefly held for approximately 1/2 - 2 seconds in sensory registers. Information is encoded/processed and transferred into short-term memory or decays and is lost forever.
 1. Icon - visual memory and lasts for approximately 1/2 second
 2. Echo - auditory memory and lasts for approximately 2 seconds
 3. De ja vu' - memory theorists believe this is caused by a short circuit in sensory memory and the information is being reprocessed which is what gives you that uncanny feeling that you have experienced something before. You have, only a few seconds ago.
- **Short term Memory** - also referred to as working information
 1. Information stays here for approximately 18-30 seconds.
 2. Limited capacity - 7 items + or -2 (5-9 items).
 3. Helps you think & solve problems by organizing and integrating information.
 4. Strategies can be used to help increase short-term capacity and duration of time.
Chunking - organizing several bits of information into one piece
Ex: area codes and exchanges of phone numbers
Maintenance Rehearsal - rote repetition over and over again Elaborative Rehearsal - associate new information & existing knowledge
- **Long-term Memory** - Storage of Information Indefinitely
 1. Theoretically has an unlimited capacity
 2. 3 types
 - * Semantic memories - general knowledge, facts, and concepts
 - * Procedural memories - how to do something
 - * Episodic memories - personally relevant experiences

III. Biological Bases of Memory

1. Short-term memory involves changes in the neurochemistry

* increased synaptic responsiveness

* Neurotransmitters directly involved - glutamate & acetylcholine

2. Long-term memory - involves structural changes in the dendrite

* 2 week consolidation/stabilization period before memory becomes permanent

General Psychology H. K. Moore, 1948 **Memory's Library** Jennifer Summit, 2008-11-15 In Jennifer Summit's account libraries are more than inert storehouses of written tradition they are volatile spaces that actively shape the meanings and uses of books reading and the past Considering the two hundred year period between 1431 which saw the foundation of Duke Humfrey's famous library and 1631 when the great antiquarian Sir Robert Cotton died Memory's Library revises the history of the modern library by focusing on its origins in medieval and early modern England Summit argues that the medieval sources that survive in English collections are the product of a Reformation and post Reformation struggle to redefine the past by redefining the cultural place function and identity of libraries By establishing the intellectual dynamism of English libraries during this crucial period of their development Memory's Library demonstrates how much current discussions about the future of libraries can gain by reexamining their past Understanding Language Dominic W. Massaro, 2014-05-10 Understanding Language An Information Processing Analysis of Speech Perception Reading and Psycholinguistics focuses on the progress of approaches principles and practices involved in speech perception reading and psycholinguistics The selection first offers information on language and information processing articulatory and acoustic characteristics of speech sounds and acoustic features in speech perception Discussions focus on vowel and consonant recognition production of speech sounds general acoustic properties and occurrence of speech sounds vowel phonemes of English and information auditory and visual information processing The text then examines preperceptual images processing time and perceptual units in speech perception theories of perception and visual features preperceptual storage and processing time in reading Topics include processing time visual features summary of information processing analysis of speech perception role of linguistic structure in model building and preperceptual images and processing time The manuscript takes a look at an analysis of psychological studies of grammar word and phrase recognition in speech processing and linguistic theory and information processing including psychological function of certain transformation rules psychological reality of constituent structure and linguistics and psychology The selection is a vital source of data for researchers interested in speech perception reading and psycholinguistics *Columbia University Bulletin* Columbia University, 1938 *Psychological Tests* Henry Edward Garrett, Matthew R. Schneck, Matthew Maximilian Rupprecht Schneck, 1933 The Behavioral Foundations of Public Policy Eldar Shafir, 2013-01-10 An interdisciplinary look at the behavioral roots of public policy from the field's leading experts In recent years remarkable progress has been made in behavioral research on a wide variety of topics from behavioral finance labor contracts philanthropy and the analysis of savings and poverty to eyewitness identification and sentencing decisions racism sexism health behaviors and voting Research findings have often been strikingly counterintuitive with serious implications for public policymaking In this book leading experts in psychology decision research policy analysis economics political science law medicine and philosophy explore major trends principles and general insights about human

behavior in policy relevant settings Their work provides a deeper understanding of the many drivers cognitive social perceptual motivational and emotional that guide behaviors in everyday settings They give depth and insight into the methods of behavioral research and highlight how this knowledge might influence the implementation of public policy for the improvement of society This collection examines the policy relevance of behavioral science to our social and political lives to issues ranging from health environment and nutrition to dispute resolution implicit racism and false convictions The book illuminates the relationship between behavioral findings and economic analyses and calls attention to what policymakers might learn from this vast body of groundbreaking work Wide ranging investigation into people s motivations abilities attitudes and perceptions finds that they differ in profound ways from what is typically assumed The result is that public policy acquires even greater significance since rather than merely facilitating the conduct of human affairs policy actually shapes their trajectory The first interdisciplinary look at behaviorally informed policymaking Leading behavioral experts across the social sciences consider important policy problems A compendium of behavioral findings and their application to relevant policy domains **Journal of Educational Psychology** ,1928 Subject Collections ,1993 **Scientific, Medical, and Technical Books Published in the United States of America, 1930-1944** Reginald Robert Hawkins,1950
