**Success Factors of Private Equity Investments in the Retail Industry** Louisa Blum, 2022-12-12 Bachelor Thesis from the year 2020 in the subject Economics Finance grade 6 0 6 0 University of St Gallen language English abstract This thesis examines the relationship between private equity firm and fund level characteristics and the performance of leveraged buyouts in the retail sector More specifically the three dimensions general partner experience fund size and the fund's retail specialization are analyzed The impact of the three characteristics on the investment performance proxied by money multiples and internal rates of return as well as by the write off probability of the buyout is assessed by analyzing a sample of 10 376 buyouts conducted since 1993 of which 614 deals are transactions in the retail sector According to Bloomberg News the year of 2017 was known as the Retail Apocalypse with more U S retailers filing for bankruptcy than during the year of the financial crisis By taking a closer look at the reasons for these defaults one will quickly understand that the culprit might not solely be Amazon Inc tapping on market share Before their bankruptcies numerous retail companies were bought and highly levered by private equity firms who neither were able to implement adequate operational improvements nor product and sales innovations The resulting collapses like the one of toy giant ToysRUs in September 2017 twelve years after its leveraged buyout by the mega funds of Bain Capital and KKR lead to numerous store closings and job losses Hence there is certainly a need to understand the factors determining the success of private equity investments in the retail industry This thesis aspires to establish a causal relationship between macroeconomic firm and fund level characteristics and buyout performance in the retail sector **ABA Banking Journal** American Bankers Association, 2001 Better and Better: Creating a Culture of Purpose, Excellence, and Transformative Human Engagement Robert Stiller, 2024-09-06 Green Mountain Coffee founder Bob Stiller delivers the timeless leadership approach he pioneered in the 1990s to help you increase engagement retention and revenue Decades before the business world discovered the power of authentic staff engagement Green Mountain Coffee Roasters cofounder Bob Stiller was busy creating a company with a mission to build an engaged workforce focused on innovation In the end Green Mountain became a place where people realized they could make a difference where their input mattered where they were rewarded fairly and where they can grow It became a place workers feel good about A community A happy place that got better and better And business results followed Green Mountain Coffee Roasters went public moved to selling wholesale exclusively invested in Keurig and became one of the few coffee companies to ever reach 1 billion in sales It became one of the top performing stocks of the 1990s on the Nasdaq exchange and from 1995 to 2015 its stock had a 70 percent compounded annual rate of growth In Better and Better Stiller explains how he did it from donating five percent pretax net income to environmental and social causes with employees collectively deciding how donations would be used to paying employees to volunteer in their own communities to providing much needed loans to small farms With Better and Better you'll learn how to use optimism self awareness and kindness to build an inclusive and
