marketing systems of the past and present to forecast Europe's likely role in the global economy. The book addresses e-commerce and the Internet as they relate to Europe's privatization and the move toward a market economy in Eastern Europe, the effect of global politics on marketing, Delphi research on possible scenarios that could play out over the next few decades, and how the outlook of consumers (optimistic or pessimistic) can affect the market's future. Euromarketing and the Future includes a political/economic look at the implications of European unification on the last 50 years to make some predictions for the next 50; content analysis of international Web sites that encourage cross-border sales; a survey of small retail business managers in Romania on what the influx of large foreign retail chains means to their futures; a global paradigm marketing model that illustrates consumer/citizen/institutional and macro/environmental interdependencies; global product and marketing strategies for globalising ICT companies; and much more. No one can predict the future. But through thoughtful analysis and examination of major political and economic developments in Western and Eastern Europe, Euromarketing and the Future gives you the head start you need to prepare your business for the likely changes in consumer behavior and marketing that lie ahead.
