# A New Class of Multichannel Image Processing Filters: Vector Median-Rational Hybrid Filters

Lazhar KHRIJ<sup>†</sup> and Moncef GABBOUJ<sup>†</sup>, *Nonmembers*

**SUMMARY** A new class of nonlinear filters called Vector Median Rational Hybrid Filters (VMRHF) for multispectral image processing is introduced and applied to color image filtering problems. These filters are based on Rational Functions (RF). The VMRHF filter is a two-stage filter, which exploits the features of the vector median filter and those of the rational operator. The filter output is a result of vector rational function operating on the output of three sub-functions. Two vector median (VMF) sub-filters and one center weighted vector median filter (CWVMF) are proposed to be used here due to their desirable properties, such as, edge and details preservation and accurate chromaticity estimation. Experimental results show that the new VMRHF outperforms a number of widely known nonlinear filters for multispectral image processing such as the Vector Median filter (VMF) and Distance Directional Filters (DDF) with respect to all criteria used.

**Key words:** rational functions, vector rational filters, vector median filters, vector median-rational hybrid filters

## 1. Introduction

Multichannel image processing is investigated in this paper using a vector approach [10]. This has been proved to be more appropriate for vector-valued signals compared to traditional component-wise approaches. The suitability of such a technique is often credited to the inherent correlation that exists between the image channels [10]. In the vector approach, each image element is considered as an  $m$ -dimensional vector ( $m$  is the number of image channels). Color image pixels are often represented by three-component vectors,  $m = 3$ , whose characteristics, i.e., magnitude and direction are examined. The vector's direction signifies its chromaticity; while, its magnitude is a measure of its brightness. A number of vector processing filters have been proposed in the literature for the purpose of color image processing [2], [11]. One class of filters considers the distance in the vector space between the image vectors; typical representative of this class is the "vector median filter" (VMF) [1]. A second class of filters, called "vector directional filters" (VDF) [16], operates by considering the vectors' direction. VMFs are derived as maximum likelihood estimators for an exponential distribution [1]; while, VDFs are spherical estimators, when the underlying distribution is a spheri-

cal one [16]. A third class of filters uses rational functions in its input/output relation, and hence the name "vector rational filters" (VRF) [6]. There are several advantage to the use of this function. Similarly to a polynomial function, a rational function is a universal approximator (it can approximate any continuous function arbitrarily well); however, it can achieve a desired level of accuracy with a lower complexity, and possesses better extrapolation capabilities. Moreover, it has been demonstrated that a linear adaptive algorithm can be devised for determining the parameters of this structure [9].

In this paper, a novel nonlinear vector filter class is proposed: the class of vector median-rational hybrid filters (VMRHF). This is an extension of the nonlinear rational type hybrid filters called median-rational hybrid filter's (MRHF) recently introduced for 1-D and 2-D signal processing [7], [8], based on rational filters [9], [15]. The VMRHF is formed by three sub-filters (two vector median filters and one center weighted vector median filter) and one vector rational operation. VMRHF are very useful in color (and generally multichannel) image processing, since they inherit the properties of their ancestors. They constitute very accurate estimators in long- and short-tailed noise distributions and, at the same time, preserve the chromaticity of the color image. Moreover, they act in small window and require few number of operations, resulting in simple and fast filter structures.

This paper is organized as follows. Section 2 briefly reviews rational functions and vector rational function filters. In Sect. 3, we define the vector median-rational hybrid filter (VMRHF) and point out some of its important properties. The proposed filter structures are presented in Sect. 4. Section 5 includes simulation results and discussion of the improvement achieved by the new VMRHF. In order to incorporate perceptual criteria in the comparison, the error is measured in the the uniform  $L^*a^*b^*$  color space, where equal color differences result in equal distances [14]. Section 6 concludes the paper.

## 2. Rational Function and Vector Rational Function Filters

A rational function is the ratio of two polynomials. To be used as a filter, it can be expressed as:

### **Multichannel Filters For Image Processing Introduction**

Multichannel Filters For Image Processing Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Multichannel Filters For Image Processing Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Multichannel Filters For Image Processing : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Multichannel Filters For Image Processing : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Multichannel Filters For Image Processing Offers a diverse range of free eBooks across various genres. Multichannel Filters For Image Processing Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Multichannel Filters For Image Processing Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Multichannel Filters For Image Processing, especially related to Multichannel Filters For Image Processing, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Multichannel Filters For Image Processing, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Multichannel Filters For Image Processing books or magazines might include. Look for these in online stores or libraries. Remember that while Multichannel Filters For Image Processing, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Multichannel Filters For Image Processing eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Multichannel Filters For Image Processing full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Multichannel Filters For Image Processing eBooks, including some popular titles.

### FAQs About Multichannel Filters For Image Processing Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Multichannel Filters For Image Processing is one of the best book in our library for free trial. We provide copy of Multichannel Filters For Image Processing in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Multichannel Filters For Image Processing. Where to download Multichannel Filters For Image Processing online for free? Are you looking for Multichannel Filters For Image Processing PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase.
