**Distance Education** Michael Simonson, 2016-09-07 Distance Learning journal is a leading source for practical applications of distance education globally. The 2nd edition of Distance Education: Statewide, Institutional, and International Applications of Distance Education compiles readings from the journal written by practitioners for practitioners. *Distance Learning* Michael Simonson, Charles Schlosser, 2015-07-01 Distance Learning is for leaders, practitioners, and decision makers in the fields of distance learning, e-learning, telecommunications, and related areas. It is a professional journal with applicable information for those involved with providing instruction to all kinds of learners of all ages using telecommunications technologies of all types. Stories are written by practitioners for practitioners with the intent of providing usable information and ideas. Articles are accepted from authors new and experienced with interesting and important information about the effective practice of distance teaching and learning. Distance Learning is published quarterly. Each issue includes eight to ten articles and three to four columns, including the highly regarded "Finally" column covering recent important issues in the field and written by Distance Learning editor Michael Simonson. Articles are written by practitioners from various countries and locations nationally and internationally. Distance Learning is an official publication of the United States Distance Learning Association and is co-sponsored by the Fischler School of Education at Nova Southeastern University and Information Age Publishing. *"Code of Massachusetts regulations, 2012"*, 2012 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020. **Five Dimensions of Quality** Linda Suskie, 2014-08-22 Meet calls for increased quality and understand accreditation expectations. Author Linda Suskie is internationally recognized for her work in higher education assessment and she is a former vice president of a major regional accreditor. In *Five Dimensions of Quality: A Common Sense Guide to Accreditation and Accountability in Higher Education*, she provides a simple, straightforward model for understanding and meeting the calls for increased quality in higher education ever present in today's culture. Whether your institution is seeking accreditation or not, the five dimensions she outlines will help you to identify ways to improve institutional quality and demonstrate that quality to constituents. For those wading through the accreditation process, which has become more difficult in recent years due to increasing regulation and pressure for greater accountability, Suskie offers expert guidance on understanding the underlying principles of the expectations of accrediting bodies. Using the model presented here, which is much easier to understand than the sometimes complex resources provided by individual accrediting bodies, American colleges and universities can

understand what they need to do to earn and maintain their regional accreditation as well as improve overall institutional quality for their students You ll be able to Identify ways to improve institutional quality Demonstrate the quality of your institution to internal and external constituents Avoid wasting time and energy on misguided institutional processes to comply with accreditation requirements By focusing on why colleges and universities should take particular actions rather than only on what those actions should be Five Dimensions of Quality gives them the knowledge and strategies to prepare for a successful review It is an ideal resource for leaders accreditation committee members and everyone on campus
