**The American Legal Profession** Christopher P. Banks, 2017-06-21 While emphasizing that lawyers fulfill a vital but often misunderstood public function in society *The American Legal Profession: The Myths and Realities of Practicing Law* by Christopher P. Banks dispels some of the common misconceptions about the legal profession to show that the reality of being a lawyer is much different from what many students believe it to be. Many students know little about what law school is like or how it differs from undergraduate study and this book corrects common myths about graduating law school and life after passing the bar. This brief primer is a nuts and bolts analysis of what it is really like to go into the legal profession from start to finish giving students considering a career in law a realistic overview of their potential legal careers.

**Internationalising Higher Education In The Asia Pacific: Case Of Australia, Japan And Singapore** Teofilo C Daquila, 2022-07-28 With his many years of overseas experiences as an international student educator and scholar Teofilo C Daquila has conducted his research on the internationalisation of higher education (IHE) as it has become an important policy issue and research topic for governments and universities around the world. He aims to determine the extent of internationalisation of higher education in the Asia Pacific region particularly in Australia, Singapore and Japan in terms of its determinants and impacts using a multi and inter disciplinary framework of analysis through historical, political, geographical, economic, social and cultural dimensions. Daquila examines three leading universities in the world as case studies to determine their internationalisation experiences and the extent of their competitiveness. These are the University of Melbourne, the National University of Singapore and Kyoto University. He uses four indicators of competitiveness: governance and structure, demand conditions, factor conditions and internationalisation strategies using the following indicators of IHE expansion: broadening, diversification, deepening and facilitation. This book is highly recommended for anyone interested in the internationalisation of higher education, its determinants and multiple perspectives, the competitiveness and internationalisation experiences and strategies of universities.
