You work as a data analyst for a large supermarket chain called Compress. You've been presented with 4 important tables from their data warehouse.

- The `Item` table, where each row is an item available for purchase from Compress.
- The `Customer` table, where each row is a registered customer. Not all customers are registered, many shop anonymously.
- The `Order` table, where each row is a purchase transaction. It contains information about the items purchased, the price paid, and the date of purchase.
