The Future of No Work: Master AI, Gain Superpowers, Earn More and Live by Your Own Rules Filip Drimalka, 2025-04-10 We have been told for ages that technology would make our lives easier. Instead, we increasingly find ourselves drowning in tedious tasks and feeling trapped in the daily grind: overflowing calendars, endless to-do lists, and a never-ending stream of interruptions. And since we're always connected, our work never seems to end. Fortunately, the AI revolution is here. And it's about to change everything. Imagine a world where technology finally starts taking care of all the boring stuff so you can focus on what really matters to you. Where smart AI apps empower you to create anything you can imagine and even things you never would have thought of. Where you have the power to redesign work around your life, not the other way around. This is the era of No Work. It's not about escaping work, but about using our skills and leveraging the possibilities unlocked by AI so that our days are primarily comprised of the things we are passionate about. Because that's how we can create something extraordinary. Inside this book, you'll find hundreds of practical examples and tips: How to find, select, and use the right digital tools for anything you do. How to make your productivity skyrocket with AI and reclaim your time. How to do things your way with greater freedom by automating more tasks. How to craft the work you want, whether you're an entrepreneur or an employee. How to seize new opportunities and build a future-proof career. The book will provide you with loads of tips on the best apps and tools that are part of the AI revolution, but the real magic is how it changes the way you think. You'll learn new skills and timeless principles that will keep you ahead of the game, no matter how AI changes the way we work.

Stories of Fashion, Textiles, and Place Leslie Davis Burns, Jeanne Carver, 2021-09-09 *Stories of Fashion, Textiles, and Place* follows the journeys of five companies with evolving sustainable supply chains in the fashion and textile industry. Each of the profiled companies is committed to advancing cultural traditions of a particular place. They value honor and are all deeply rooted in the geography, culture, and people of a specific location, and their success is attributable to their connection to that place. With this shared value, their unique stories highlight the conditions, risks, strategies, and successes in creating and maintaining sustainable supply chains for ready-to-wear and home fashions. The companies include Imperial Stock Ranch and Shaniko Wool Company, Oregon, USA; Angela Damman Yucatán, Yucatán, Mexico; Tonl Phnom Penh, Cambodia; Indigenous Designs Highlands, Peru; Harris Tweed, Outer Hebrides, Scotland, UK. With a focus on economic, social, environmental, and cultural sustainability and the connection between textiles and place, Burns and Carver offer personal and insightful narratives of companies addressing the challenges facing today's global fashion industry.
