Thirty years after its first publication Peter Steiner's erudite thoughtful book remains a classic study of Russian Formalism. His metapoetic analysis offers a simple clear schema for apprehending the unity of action and dynamic configuration of the Russian formalists' program while fully respecting the diversity of the cluster of theories they put forward. As such it also serves as one of the best introductions to a movement that still exerts considerable influence on literary study.

**The Polish Formalist School and Russian Formalism** Andrzej Karcz, 2002. Revising his 1999 doctoral dissertation for the University of Chicago, Karcz explores the Polish Formalist School of literary theory and analysis which had already sprouted when Russian Formalism was silenced as heresy by Stalinist pressures in 1930 and the relationship between the two movements. He begins by discussing the anticipations of Polish Formalism then focuses on the work of Kazimierz Woycicki (1876-1938), Mandred Kridl (1882-1957) and other primary theoreticians and practitioners. Excerpts are in English. Annotation 2004. Book News Inc, Portland, OR, booknews.com.

*Boris Eikhenbaum* Carol Joyce Any, 1994. This is the first book-length study of Boris Eikhenbaum (1886-1959), a leading Russian Formalist and a pathbreaking Tolstoy scholar. The author carefully traces Eikhenbaum's intellectual trajectory from his pre-Formalist philosophical criticism through Formalism to his later biographical criticism of Tolstoy and Lermontov. Eikhenbaum's contribution to Formalism has not heretofore received clear definition and the author shows that his ideas and influence were even greater than previously supposed. His shift away from Formalism with its emphasis on purely literary analysis toward a criticism that emphasized the writer as a cultural figure is seen as a response to both political exigency and personal need. Although by the late 1910s Formalism had become poetics non grata in the Soviet Union, the author demonstrates that Eikhenbaum also had compelling intellectual reasons to move away from Formalism which had reached a dead end. The author asserts that Eikhenbaum prolonged his scholarly life by concentrating on nineteenth-century Russian authors whose moral opposition to mainstream Russian intellectual thought served as a model for his own ethical stance in Stalin's Russia. This is particularly true of his monumental three-volume work on Tolstoy which in its own way has been as influential as his Formalist writings. Throughout the author relates Eikhenbaum's critical thinking to such current literary issues as intention, perception, meaning, reader reception, deconstruction, and the New Historicism.

**Russian Formalism** Robert Stolt, 2010-03-10. Seminar paper from the year 2009 in the subject English Language and Literature Studies, Other grade 1-2, University of St Andrews, language: English, abstract. In the course of this essay the terminology that was applied by the Russian Formalist theoreticians shall be investigated; many terms were even invented and introduced by the Formalists themselves. More precisely, a careful look will be taken at how the literary critics Medvedev and Bakhtin in *The Formal Method in Literary Scholarship* and Hansen L. ve in *Der Russische Formalismus* examine the Formalist terms. In order to evaluate Formalist terminology accurately and objectively, the mentioned critics' theories shall be

underpinned by and contrasted with the opinion of other critics in this field Two of Shklovsky's articles 'The Resurrection of the Word' and 'Art as Device' are taken as a starting point for paving the way for a detailed analysis of the formal terminology The major focus lies on the term *ostranenie* that was firstly introduced by Shklovsky 1991 and is most commonly translated as estrangement defamiliarisation or making it strange The essay shall not only analyse the origins of this concept but furthermore compare the different interpretations the term entails Hansen L ve's evaluation of the concept of *ostranenie* as well as Medvedev and Bakhtin's assessment of Shklovsky's analysis of Tolstoy's *Kholstomer* in the view of estrangement reveals the critical approach on which this essay is based on Moreover the Russian term of *obnazenie* the laying bare of the work Hansen L ve 1978 and *oveshchestvlenie* the process of materialisation Medvedev Bakhtin 1978 shall be regarded throughout this essay since both concepts go hand in hand with the idea of *ostranenie* In the last part of the essay the formal theory of shutting out subjective consciousness from the work Medvedev Bakhtin 1978 and the effects of this concept are in the centre of the attention This shall lead to the final evaluation of the quality in the formalist concept of perception
