Business and Health Planning in General Practice Peter Edwards, 2018-04-19. Of the many skills learned from commerce and industry needed for the development of an effective strategy, business planning has been demonstrated to bring important benefits to the practice. However, for many, the concept is necessary but unfamiliar. This book sets out to demystify the subject, explains the benefits, and by way of numerous examples, shows how they can be applied to the single-handed GP and group practices, whether or not they are fundholders. It suggests that good clinical care is not possible without the necessary planning and management skills to run a business.
