Samsung S95D OLED Calibration Settings

Updated Apr 23, 2024 at 9:48 am
By Ben Trueman

We used the following calibration settings to test the 65-inch Samsung S95D OLED (QN65S95DAFXZA) but they're also valid for the 55-inch (QN55S95DAFXZA) and 77-inch (QN77S95DAFXZA) models. These settings apply to most types of content, except for gaming or use as a PC monitor, which require a few additional changes, listed below.

For additional settings information, please consult the [Common Problems](#) and [How to Calibrate](#) pages.

These settings are meant to provide a starting point; they're not meant to be copied 1:1. They provide the most accurate image overall, but you should adjust them to match your preferences and viewing conditions.
