language change and bilingualism      *Code-Switching and Optimality* Timea Kovacs,2019-10-17 Extensive academic research has been devoted to the analysis of living in a world exposed to the constant interplay of two languages and cultures In the quest for understanding the underlying mental emotional and cognitive mechanisms of bilingualism investigating the speech patterns of bilinguals has taken on increasing importance This book will attempt to provide a complex analysis of code switching patterns in a Hungarian American bilingual community in the Triangle area of North Carolina USA The main premise of the book is that the complex linguistic pragmatic nature of code switching patterns activated by various socio cultural factors can be systematically interpreted in the framework of the theory of Optimality The uniqueness of this book lies in the fact that the proposed conclusions rely on the analysis of a large scale corpus of personal interviews conducted in the course of extensive on site research      Methodological considerations of code-switching between Serbian and German Marija Martinez de la Cruz,2023-10-13 Thesis M A from the year 2011 in the subject English Language and Literature Studies Comparative Literature grade 1 0 University of Frankfurt Main language English abstract The present study examines natural production code switching data between Serbian and German The data in this study is based on audio recordings of naturally occurring interactions among Serbian German bilinguals These conversations were recorded in everyday situations in order to capture spontaneous formulated code switching patterns In order to analyse this data collection it was considered from a grammatical and socio functional perspective within the framework of the theoretical part of this thesis During the analysis the main goal has been to identify the discourse functional and pragmatic aspects that motivate the presence of code switching and therefore to give an explanation why bilingual speakers alternate between two languages Thus the analysed Serbian German conversations shared some coincidences with the examples of the theoretical part but also implicated other code switching occurrences which served important functions in the communities where it was used      **Code-switching in a Multilingual Environment** Fatimah Haji Awang Chuchu (Dayang.),2007      *The Role of Nigerian Pidgin English as Communication Device* Joshua Izenose,2018-08-30 Bachelor Thesis from the year 2018 in the subject Speech Science Linguistics grade 4 28 course ENGLISH EDUCATION language English abstract Pidgin generally is a simplified means of communication between or among individuals of different cultures or ethnicities Nigerian pidgin English described as a combination of indigenous language and English It is a language derived from tile mix of various languages such as Igbo Edo Yoruba Effik etc In Africa pidgins found include Nigerian pidgin Cameroonian pidgin Serria Leone Krio etc Pidgins are mostly inventionist and innovative in nature and because of their spontaneous adaptability they can be as structured or as unstructured as needed unlike other languages This is to say that in pidgin there are no strict rules given in utterances There are several assumptions by Akande and Salami which say that the urban characters of the university environments are strong factors influencing the students use and attitudes to Nigerian Pidgin English They insist that apart from their education living within the university communities the students are likely to enact more urban networks that are

usually made up of multilingual and multi cultural contents Akande argues that Pidgin English could be regarded as a marker of identity and solidarity It is an inter ethnic code available to Nigerians who have no other common language

**Code-switching** Jelena M. Savić,1996      **Regime Switching Models and the Mental Accounting Framework** Felix Andresen,2017-07-18 Master s Thesis from the year 2014 in the subject Economics Finance grade 1 0 Frankfurt School of Finance Management language English abstract The main goal of this thesis is to combine all of these concepts into a unified framework evaluate its feasibility and performance and to perform an analysis of the most common pitfalls and practical considerations This unified framework uses both the MVPT and MA approach for asset allocation but at the same time allows for dynamic and fat tailed distributions of asset returns It is implemented in approximately 1200 lines of efficient MATLAB code which is publicly available at <https://github.com/FelixAndresen/RSMentalAccounting> The application is programmed in a way that it is readily expandable to a larger number of assets and other investment approaches The framework is also independent on the choice of assets which is why the choice of assets for the illustration of the thesis findings was based on the availability of data The thesis is structured as follows Chapter 2 reviews the current literature and theoretical concepts More specifically Chapter 2 1 introduces the Mental Accounting framework and the connections and differences to Markowitz s Mean Variance Portfolio Theory In Chapter 2 2 the most important concepts of dynamic investment management and stochastic programming are introduced Chapter 2 3 discusses the regime switching models used to generate scenarios for the stochastic programming approach and the important topic of model selection Chapter 2 4 gives an overview of Gaussian Mixture Models which present a tool to create the expected distribution used to optimize the asset allocation In Chapter 3 all the pieces from the theoretical parts are brought together to formulate the dynamic programming models and the hypotheses to be tested in the thesis The market data used to carry out the analysis is discussed in Chapter 4 as well as some necessary methodology on how to calculate aggregate and interpret asset returns Chapter 5 presents exemplary and illustrative results and discusses the strengths and weaknesses of the MVPT and MA investment approaches The thesis closes with a summary and conclusion in Chapter 6      [Bilingualism and the Construction of Ethnic Identity Among Chinese Americans in the San Francisco Bay Area](#) Ashley Marie Williams,2006      [Emigranto](#) Eva Eppler,2010      **JEGP, Journal of English and Germanic Philology** Gustaf E.
