Austria and the United States in the Twentieth Century Günter Bischof, 2014-04-28 After the breakup of the Habsburg Monarchy the Austrian-American relationship was characterized by a dwarf confronting a giant America continued to be a heaven for a better life for many Austrian emigrants For the growing American preponderant position in the world after World War I the small Austrian Republic was insignificant And yet there were times when Austria mattered geopolitically During the post-World War II occupation of Austria the U.S. helped reconstruct Austria economically and was the biggest champion of its independence During the Cold War the U.S. frequently used Austria as a mediator site of summit meetings American mass production models consumerism and popular culture were adopted by Austrian youth Americanization and American preponderance also produced anti-Americanism With the end of the Cold War and Austria's accession to the European Union it once again lost significance for Washington's geopolitics
