Graphics and GUIs with MATLAB Patrick Marchand,1999-04-23 This second edition provides illustrative example sets to simplify the process of learning and mastering the powerful flexible and easy to use MATLAB graphics environment It shows how to maximize the high performance and open environment capabilities for generating displaying and analyzing numerical data as well as how to quickly create interesting and beautiful graphics The book covers plotting color animation the new z buffer algorithm new functions for generating graphics for presentations and GUI programming techniques Designed as both an introduction as well as an advanced learning tool the book uses step by step tutorials with a level of detail explanation and instruction that allows readers to discover the full potential of the MATLAB graphics programming capability

Computational Science and Its Applications - ICCSA 2004
 Antonio Laganà, Marina L. Gavrilova, Vipin Kumar, Youngsong Mun, C.J. Kenneth Tan, Osvaldo Gervasi, 2004-04-29 The natural mission of Computational Science is to tackle all sorts of human problems and to work out intelligent automata aimed at alleviating the burden of working out suitable tools for solving complex problems For this reason Computational Science though originating from the need to solve the most challenging problems in science and engineering computational science is the key player in the fight to gain fundamental advances in astronomy biology chemistry environmental science physics and several other scientific and engineering disciplines is increasingly turning its attention to all fields of human activity In all activities in fact intensive computation information handling knowledge synthesis the use of ad hoc devices etc increasingly need to be exploited and coordinated regardless of the location of both the users and the various and heterogeneous computing platforms As a result the key to understanding the explosive growth of this discipline lies in two adjectives that more and more appropriately refer to Computational Science and its applications interoperable and ubiquitous Numerous examples of ubiquitous and interoperable tools and applications are given in the present four LNCS volumes containing the contributions delivered at the 2004 International Conference on Computational Science and its Applications ICCSA 2004 held in Assisi Italy May 14-17 2004
