Classic Wisdom for the Good Life Thomas Nelson,2006-05-28 The good life In its simplest form it is what you wish for those you love and care about as well as for yourself But what is it What's the prescription The truth of the matter is that no doctor can prescribe a pill that will make every heart content But through the words of extraordinary men and women who have achieved a level of greatness we can glean insights into passion dedication and wisdom So for today's astute students of the good life you hold in your hands an admit one ticket a timeless collection of inspiration and wisdom What you go on to do with it is up to you A man who views the world the same at fifty as he did at twenty has wasted thirty years of his life Muhammad Ali It's easy to make a buck It's a lot tougher to make a difference Tom Brokaw Look I don't want to wax philosophic but I will say that if you're alive you've got to flap your arms and legs you've got to jump around a lot for life is the very opposite of death and therefore you must at very least think noisy and colorfully or you're not alive Mel Brooks Anytime you see a turtle up on top of a fence post you know he had some help Alex Haley College is something you complete Life is something you experience So don't worry about your grade or the results or success Success is defined in myriad ways and you will find it and people will no longer be grading you but it will come from your own internal sense of decency Jon Stewart When the heart is right the mind and the body will follow Coretta Scott King My heroes are the ones who survived doing it wrong who made mistakes but recovered from them Bono *Personal and Professional Growth for Health Care Professionals* David Tipton,2015-12-02 *Personal and Professional Growth for Health Care Professionals* blends aspects of professional development with issues related to personal development Personal and professional development are inextricably linked because one cannot develop as a professional devoid of the personal insights related to personality character cognitions emotions and the cultural and generational constraints Includes use of multi stage model of professional development perception judgment motivation prioritization decision process and professional implementation Offers Case Studies Questions and Issues for Discussion at the end of each chapter This is an excellent resource to prepare students for
