"I felt violated in front of my peers. I was called out, and it was taking time from my education" ("Shame: A Documentary"). "It made me feel embarrassed and ashamed" ("Shame: A Documentary"). These are quotes from students at Woodford County High School who created a documentary called *Shame* to share their opinions on how harmful dress codes can be on a person's emotions. There must no longer be a dress code in schools. The codes are a problem because they do not protect children. Not only that, but also boys are not allowed to dress in female attire, the dress codes are inconsistent, and girls are targeted and sexualized. It is common for school administrators and teachers to believe if there is not a dress code, students will come to school without enough clothing, and/or they will be a distraction to other students. What these administrators do not understand is these problems would not exist if students were able to adjust to no longer "shut-shaming" and judging other students based solely on their attire. In 2013, 5-year-old Cooper Barton from Oklahoma City was told to turn his University of

Sequeira, 2014 Students are generally identified about their level of education and affiliation from their uniform or formal dress since ages Dress code for college students has always been a controversial issue among the various stakeholders On one side Institutions want to have dress code policies for maintaining a healthy learning environment and on the other side face opposition from the students and their parents who consider it as a meaningless restriction on them This exploratory study and literature review will examine the perceived benefits and disadvantages of having uniforms for college students with special reference to students pursuing their studies in business management An exploratory study was conducted to have an in depth knowledge about the topic Five institutions in a major city were selected as samples through non probability sampling design The five institutions represented a National Institution an autonomous institution and three other private colleges which are known for their reputation Both students teachers were selected using non probability purposive sampling technique The study is both quantitative as well as qualitative The arguments used in the design include both deductive and inductive reasoning The main research findings show that majority of the students believe that uniform incorporates discipline among them it brings down the chances of discrimination among students belonging to different economic strata in society and above all and it will develop their personality to suit the corporate world There was also a strong feeling among the students that wearing the same uniform for a long time is very boring *Student Dress Codes and Uniforms. Research Brief* Howard Johnston, 2009 According to an Education Commission of the States Policy Report research on the effects of dress code and school uniform policies is inconclusive and mixed Some researchers find positive effects others claim no effects or only perceived effects While no state has legislatively mandated the wearing of school uniforms 28 states and the District of Columbia have enacted laws addressing school attire ERIC Clearinghouse on Educational Management Fall 2002 Recent challenges have focused on

the chilling effect that dress codes have on free speech e.g the expression of religious or political ideas or the burdens that new dress requirements particularly uniforms place on poor parents who cannot afford to bring their children into compliance Also some parents and legal authorities claim that when students either are sent home or placed in isolation because of dress code violations it has a negative effect on their educational opportunity and ultimate performance
