Dynapac LP 8500 is a vibratory padfoot roller that is designed to cope with many different types of compaction work. The roller is designed for compaction tasks in pipe trenches, around the foundations of buildings and factories, backfilling against supporting walls and for road works. The machine is equally suitable for work in confined spaces and for major compaction jobs.

Like all other machinery powered by combustion engines, the LP 8500 is designed for use in well-ventilated areas.
