The Elements Of Modern Architecture Understanding:

The Elements of Modern Architecture Antony Radford, Selen Bahriye Morkoç, Amit Srivastava (Architect), 2020

The Elements of Modern Architecture Antony Radford, Amit Srivastava, 2020-10-06 Fifty of the world's greatest modern buildings from 1950 to the present dissected and analyzed through specially commissioned freehand drawings After a period in which computation derived architecture driven by digital design tools data analysis and new formal expression has thrived students and their teachers have returned to age old techniques before employing the digital tools that are a part of every architect's studio Tired of the perfectly rendered screen image architects are making presentations that are clearly the work of the hand and the mind not the computer This ambitious publication organized chronologically is aimed at a new generation of architects who take technology for granted but seek to further understand the principles of what makes a building meaningful and enduring Each of the fifty works of architecture is presented through detailed consideration of its site topology and surroundings natural light volumes and massing program and circulation details fenestration and ornamentation Over 2 500 painstakingly hand drawn images of the buildings of the past seven decades help readers return to the core values of understanding site and creating buildings looking with the eyes engaging through direct physical experience and constructing by hand

[Metaphoric Architecture](#) Michael C. Abrams, 2025-07-14 *Metaphoric Architecture* focuses on a fundamental but often challenging part of the beginning design phases how to take an abstract idea and transform it into a three dimensional object space or building Through media experimentation analysis of innovative case studies and hands on exercises Abrams guides the reader through the early stages of design which include site and precedent analysis among other initial approaches To comprehend design thinking the visual arts music and film are examined in relation to architecture Chapters demonstrate how abstract ideas inspired by paintings music and films can be utilized in the spatial design process and transformed into habitable spaces There are 22 exercises that increase in complexity to strengthen students abilities and promote the use of digital and manual representation in a back and forth motion With 444 illustrations this book demystifies the process of designing 3D form and space in a highly visual way It will be the ideal studio companion for beginning and intermediate students of both architecture and interior design with a wide range of architectural lessons that include abstraction design fundamentals concept development building design case study analysis and site to building relationships
