**The European "General Data Protection Regulation" and the consumer's utility. Impact and consequences** Indra Spiecker gen. Döhmman,2021-05-04 Seminar paper from the year 2018 in the subject Law Data protection grade 2 0 University of Hohenheim language English abstract This paper aims to conduct a critical literature review on the main research question Does the European General Data Protection Regulation increase consumer s utility by increasing privacy protection The paper is structured as follows in chapter 2 1 a systematic framework of the notion of privacy and privacy protection will be described Afterwards the paper will study which kind of personal data is collected data collection technologies such as user log in information cookies or IP address and the usage process of personal data Then in chapter 2 3 the command and control policy is considered a consumer policy instrument to determine how the consumer can benefit from the command and control policy and how the government can set limitations about the level of privacy protection and consumer s welfare The last chapter 2 4 presents the significant articles of the law European General Data Protection Regulation EU GDPR for privacy protection and the consequences for non compliance with the EU GDPR In the main part the research tries to answer the following questions split in chapters 3 1 and 3 2 How can we reduce privacy concerns Can a privacy protection law like the EU GDPR lower privacy concerns and protect the welfare of the consumer This paper sets out the main arguments for introducing consumers privacy concerns privacy paradox and consumer s utility regarding consumer welfare to answer the questions as mentioned above Finally the paper will summarise the findings and a concluding solution

to the research question Edward Snowden's disclosures regarding the surveillance practices of the National Security Agency NSA and the Facebook Cambridge Analytica affair in which data from up to 87 million Facebook users were illegally collected. These both cases were the largest personal data scandal in the past years. The violations of privacy protection create enormous concerns not only for the affected firms but also for their customers. Depending on the firm, the stolen data can range from relatively harmless information to extremely personal data. Besides that, a breach of privacy rights will cost a lot of money to remediate and do serious harm to a firm's credibility and reputation. These examples have sent alarming signals to governments, firms, consumer policy, and consumers to address the problem of personal processing data and privacy protection.

**The Latest EU Data Privacy Regulations** Uarda Milla, 2023-10-18 Seminar paper from the year 2023 in the subject Politics Topic European Union grade 1.0 University of Dusseldorf Heinrich Heine language English abstract The digital age has revolutionized our lives, offering convenient access to information and services. However, this convenience comes at the cost of data privacy. With a vast majority of the EU population using the internet in 2021, personal data exchange is rampant. Surprisingly, despite privacy being a human right, only 39% of internet users read data protection policies before sharing their personal information. To safeguard personal identities, the General Data Protection Regulation (GDPR) was introduced. While it empowers consumers, it also impacts businesses, especially in terms of competition. This literature analysis delves into the GDPR's effects on companies. The GDPR sets essential principles, making it applicable to all firms processing EU citizens' data. Compliance involves various measures contingent on data processing volume and method. The GDPR grants consumers rights, including being informed, access, being forgotten, objection, and data portability. These rights offer benefits to companies, fostering trust and enhancing their competitive edge. Companies complying with GDPR have gained more customers and partners, bolstering their market position. Nevertheless, many companies view GDPR negatively, fearing legal uncertainties and curtailment of business activities, particularly affecting innovative digital firms. GDPR may weaken the competitive position compared to non-GDPR competitors as it increases costs and causes the loss of some collaboration partners. In conclusion, this analysis demonstrates that the GDPR has had an adverse effect on companies, particularly concerning their competitive position. It suggests implementing the GDPR as a uniform standard framework to ensure fair competition among companies, addressing the law's uneven impact. This work contributes to the understanding of the GDPR's impact on businesses, highlighting the need for more research in this area, which currently tends to be consumer-centric.
