10. **Additional** means that a second discount is being applied. For example, after a 10% discount, a 20% off means that you are getting a 30% off.

Here's another example: you're going to buy a pair of shoes for \$100.00. The store is offering a 10% discount on everything in the store. The shoes are marked at 10% more, so you're going to be paying \$110.

11. **Final** is the price that you're going to pay after all discounts are applied. For example, if you're getting a 10% discount on a \$100.00 item, the final price is \$90.00.

Final Price means the price that you're going to pay after all discounts are applied. For example, if you're getting a 10% discount on a \$100.00 item, the final price is \$90.00.
