**Performance Appraisal in Modern Employment Relations** Tindara Addabbo,Edoardo Ales,Ylenia Curzi,Tommaso Fabbri,Olga Rymkevich,Iacopo

Senatori,2019-12-10 Contributing to the debate on work performance evaluation in a time of technological transformation

this book explores the impact of digitisation on production and organisation models as well as on the rights and interests of the stakeholders involved As organisations down size merge with other companies and become decentralised the boundaries in employer employee customer relationships are blurred and new models for the organisation and assessment of work performance have emerged With these new models innovative regulatory approaches are sorely needed Taking an interdisciplinary approach and drawing on theoretical concepts from organisation studies human resource management sociology and labour economics this all encompassing collection is not only essential reading for academics and students but also for policy makers and employers who are looking for innovative and practical solutions to the challenges of modern employment relations

**Managing Knowledge, Absorptive Capacity And Innovation** Joe Tidd,2021-05-05 Knowledge Management focuses on identifying sharing storing and exploiting internal knowledge whereas Open Innovation is more concerned with sources of external knowledge However this simple dichotomy between open and closed approaches is unhelpful and not realistic Instead it is the interaction between internal and external knowledge that creates dynamic capabilities and the ability to innovate In particular we need to better understand the interactions between internal and external knowledge and how these influence innovation outcomes under different conditions This edited volume Managing Knowledge Absorptive Capacity and Innovation provides an opportunity to combine contemporary interests in Open Innovation with the classic notion of absorptive capacity to better understand how organisations can manage the absorption and exploitation of inbound external sources of knowledge in order to innovate

**GLOBALIZATION IN INDIA** RAMANUJ GANGULY,2010-02-15 Since the last decade of twentieth century India has strived for an experienced and unprecedented economic turn around The country has witnessed a structural shift in GDP growth propelled largely by new investments and the growth of the value enhancing services sector Globally these efforts are not only source of appreciation but also of assumption for many that India increasingly being seen as part of new axis of influence in the world Long established three headed social problem poverty illiteracy unemployment remains the biggest stumbling block for a post colonial country like India New sets of problems have taken shape in the last quarter of twentieth century when policy makers and market participants have prioritized economic activities for short term gains In context of the above Center of Associates for Sociological Studies and Action undertook to bring out to the fore oft neglected inter disciplinary discussions and analysis in fifteen articles to examine the process of globalization in India taking insights from economics political

science and international relations sociology cultural anthropology social ecology management and cultural studies It discusses the impact of the process of globalization on social institutions like marriage family economy politics education and religion The book is intended for postgraduate students and research scholars It provides readers with a clear perspective about creating economics environmental and social capital that can produce multiplier effect for making national progress more inclusive and sustainable

**Measuring Innovative Work Behaviour** Jeroen P.J de Jong,Deanne N. Den Hartog,2010 Both scientists and practitioners emphasize the importance of innovative work behaviour IWB of individual employees for organizational success but the measurement of IWB is still at an evolutionary stage This article is concerned with developed a measure of IWB with four potential dimensions the exploration generation championing and implementation of ideas From a pilot survey among 81 research professionals and their supervisors we derived an initial version of ten items Next analysis of validity drew on survey data from 703 matched dyads of knowledge workers and their supervisors in 94 knowledge intensive services firms It included confirmatory factor analyses and hierarchical multilevel regressions to test hypothesized relationships of IWB with related constructs including participative leadership external work contacts and innovative output These analyses demonstrated sufficient reliability and criterion validity Evidence for the distinctiveness of the four dimensions was however weak suggesting that IWB is one dimensional We conclude that further research on this issue is merited

**Innovative Work Behavior** Rabia Imran,2011-10 The study made a significant contribution to the existing body of knowledge by integrating different aspects of organizational climate transformational leadership and innovative work behavior The study directly benefited the managers as they should become aware of the role of their leadership style in creating a climate that is conducive for employee innovative work behavior The study provides guidelines useful for managers in enhancing employee s innovative behaviors Organizations can train managers to become leaders so they create conducive organizational climate to ensure innovative behavior The management may focus on transformational leadership as a fundamental aspect of supervisory practices due to its impact on perceptions of organizational climate and innovative work behavior Human resource development is the burning issue these days A lot of effort is being made to raise the level of the employees to have innovative and competitive organizations The current study

helps policy makers to make policies for human resource development and have a more development oriented environment which would help in having competitive organizations

### **Innovative and Creative Behaviours in the Modern**

**Workplace: Causes and Consequences** Mike James Mustafa, Mathew Hughes, Delia Virga, 2025-08-22 In light of ongoing globalization and the post pandemic recovery period organizational innovativeness is becoming a strategic necessity for many organizations to survive and thrive in contemporary business environments In achieving innovativeness organizations have become reliant on the discretionary and non conformity extra role behaviors of their employees that go beyond employee role expectations Employee creativity and innovativeness represent two such behaviors deemed critical for organizational innovativeness Employee creativity can be viewed as the cognitive and behavioral processes applied when attempting to generate novel ideas and employee innovativeness as the processes applied when attempting to implement new ideas A particular challenge for organizations is understanding how behaviors emerge and how they can be sustained through appropriate structures and processes Such challenges are even more profound given that employees may not be willing to engage in such behaviors due to often significant personal costs associated with engaging in them Given the growing importance of employee creative and innovative behaviors to organizational success and survival numerous studies have examined their antecedents in order to develop theoretical models and evidence based guidance for enhancing employee creativity and innovativeness A fundamental issue among such studies is that they have mainly focused on specific elements of organizational cultures and or leadership styles This has often resulted in an incomplete understanding of how such complex behaviors actually emerge
