

chapter 7: monitoring and evaluation

The Training Program is relatively new and is still developing. Careful monitoring and evaluation of the Program by the people most closely involved in it will help with its ongoing development at team, Area Health Service and State-wide levels. Monitoring activities and evaluating outcomes enable teams to reflect on what works and what does not and allows for continuous improvements to be made that will benefit teams, the Trainees, mental health services and the consumers.

This chapter discusses the importance of monitoring and evaluation and describes the Program rationale and Program logic. The chapter outlines a monitoring and evaluation framework for the Training Program.
