

# Operations Management – Case Study Analysis Instructions

## General Instructions

Students will prepare a written case study as outlined below.

## Methodology

Each student should take the role of a consultant assigned to report on the operations issues to senior management.

In all cases students are expected to research at least 2 peer-reviewed articles (e.g., journal papers) about the topic in discussion to help support their analysis. Wikipedia, blogs and other unreliable web resources will **not** be accepted.

## Written Presentation (15% out of 100% of the overall course weighted grade)

Students will prepare a written case analysis presentation, which must be submitted, to the instructor.

The text should be double spaced and should be done in a professional manner. You should include copies of all tables, diagrams, etc. used in your presentation. The cover sheet should include the student name. The student will submit one copy of his/her analysis to the instructor via the BrightSpace "Assignment Section" of the course shell, labeled "Case Study – Individual." The due date submission of this assignment is noted in the BrightSpace "Assignment Section" of the course shell.

There is not a firm guideline of the report content. However, it is important that the following information be present.

1. **Cover page** – with the usual information - student information, title, subtitle, course, and section names and numbers.
2. **Executive summary** – the report is addressed to senior management of the company in question. The executive summary should include a general summary of the case, the conclusion, and recommendation.
3. **Table of contents**
4. **Content**  
This is dependent upon what type of project is, e.g. whether it is research-oriented, or practical problem-solving.
5. **Appendix**

Technological Solutions for Sustainable Business Practice in Asia Ordóñez de Pablos, Patricia, 2015-05-31 Central Asian countries play a geostrategic role in world economy and politics As a result efforts are being made to establish an effective channel of communication between academic and research institutions policymakers government agencies and individuals concerned with the complexities of Asian business information technologies sustainable development and globalization Technological Solutions for Sustainable Business Practice in Asia provides an in depth analysis on Asian economy business and management with a clear international and interdisciplinary approach This comprehensive resource is beneficial for academics PhD students policymakers and government officials

Encyclopedia of Production and Manufacturing Management Paul M. Swamidass, 2006-09-21 The Encyclopedia of Production and Manufacturing Management is an encyclopedia that has been developed to serve this field as the fundamental reference work Over the past twenty years the field of production and operations management has grown more rapidly than ever and consequently its boundaries have been stretched in all directions For example in the last two decades production and manufacturing management absorbed in rapid succession several new production management concepts manufacturing strategy focused factory just in time manufacturing concurrent engineering total quality management supply chain management flexible manufacturing systems lean production and mass customization to name a few This explosive growth makes the need for this volume abundantly clear The manufacturing industry thinks and acts more broadly than it did several decades ago The most notable change has been the need for manufacturing managers to think in technological strategic and competitive terms This is a very favorable development and it leads to manufacturing success The entries in this encyclopedia include the most recent technical and strategic innovations in production and manufacturing management The encyclopedia consists of articles of varying lengths The longer articles on important concepts and practices range from five to fifteen pages There are about 100 such articles written by nearly 100 authors from around the world In addition there are over 1000 shorter entries on concepts practices and principles The range of topics and depth of coverage is intended to suit both student and professional audiences The shorter entries provide digests of unfamiliar and complicated subjects Difficult subjects are made intelligible to the reader without oversimplification The strategic and technological perspectives on various topics give this Encyclopedia its distinctiveness and uniqueness The world of manufacturing today is increasingly competitive It is apparent that manufacturers must respond to these competitive pressures with technical and strategic innovation This encyclopedia has been developed to help researchers students and those in the manufacturing industry to understand and implement these ongoing changes in the field

Analyzing the Impacts of Industry 4.0 in Modern Business Environments Brunet-Thornton, Richard, Martinez, Felipe, 2018-05-04 In order to improve competitiveness and performance corporations must embrace advancements in digitalization Successful implementation of knowledge management is a huge factor in corporate success

Analyzing the Impacts of Industry 4.0 in Modern Business Environments is a critical scholarly publication that explores digital transformation in business environments and the requirement for not only a substantial management change plan but equally the two essential components of knowledge management: knowledge sharing and knowledge transfer. Featuring a broad range of topics such as strategic planning, knowledge transfer, and cybersecurity risk management, this book is geared toward researchers, academicians, and students seeking current and relevant research on organizational knowledge intensity and monitoring of knowledge management development.

Engineering Principles of Unit Operations in Food Processing  
Seid Mahdi Jafari, 2021-06-22  
Engineering Principles of Unit Operations in Food Processing, volume 1 in the Woodhead Publishing Series In Unit Operations and Processing Equipment in the Food Industry series, presents basic principles of food engineering with an emphasis on unit operations such as heat transfer, mass transfer, and fluid mechanics. Brings new opportunities in the optimization of food processing operations. Thoroughly explores applications of food engineering to food processes. Focuses on unit operations from an engineering viewpoint.

*Intelligent Manufacturing and Energy Sustainability*  
P. H. V. Sesha Talpa Sai, Srikar Potnuru, Mehmet Avcar, Vishesh Ranjan Kar, 2023-11-27  
This book includes best selected high quality research papers presented at the International Conference on Intelligent Manufacturing and Energy Sustainability ICIMES 2023 held at the Department of Mechanical Engineering, Malla Reddy College of Engineering Technology, MRCET Hyderabad, India, during June 23-24, 2023. It covers topics in the areas of automation, manufacturing technology, and energy sustainability, and also includes original works in the intelligent systems, manufacturing, mechanical, electrical, aeronautical, materials, automobile, bioenergy, and energy sustainability.

Urban Governance  
Jiuping Xu, Yi Lu, Asaf Hajiyev, Zongmin Li, 2025-06-27  
This book offers a comprehensive exploration of the latest advancements in sustainable and resilient supply chain management. The chapters in this volume present a diverse range of topics, including innovative strategies for optimizing sustainable food supply chains through data envelopment analysis, dynamic multi-modal perspectives on global supply chain network configuration, and robust data-driven optimization techniques for designing sustainable cold supply chains for livestock and perishable goods. Other chapters delve into key areas such as optimal pricing and production lot size strategies for sustainable inventory models, carbon-sensitive transport solutions for deteriorating supply chains, and trade credit policies in growing product supply chains. Additionally, the book addresses the complexities of inventory management, purchasing and cutting policies for imperfect and perishable raw materials, the influence of supply chain finance, and trade digitization on financial stability and the development of heuristic master planning algorithms that prioritize fairness and flexibility. Further studies examine adaptive product changeover policies, a PDCA-based approach to evaluating green supply chain performance, and robust multi-criteria decision analysis techniques for selecting transportation service providers in the face of uncertainty. By offering insights into both theoretical and practical aspects, this book provides a valuable resource for researchers, practitioners, and policymakers looking to navigate the evolving landscape of sustainable supply chains. This book

will be valuable to students researchers and policymakers in the fields of supply chain management sustainable logistics and operations research The chapters in this book were originally published in International Journal of Management Science and Engineering Management
