Acting For Animators:

Acting for Animators Ed Hooks, 2023-05-24 Ed Hooks essential acting guidebook for animators has been fully revised and updated in this fifth edition capturing some of the vast changes that have affected the animation industry in recent years. Written specifically for animation professionals instead of stage and movie actors, this book provides an essential primer for creating empathetic and dynamic character performance and in the process shows how the strongest storytelling structure works. Hooks applies classical acting theory from Aristotle to Stanislavsky and beyond to animation as well as explaining scene structure, character development, and the connections between thinking, emotion, and physical action. Theory presented here applies to any and all character animation regardless of style or animation technique. Whether your project is stop motion, 2D, 3D, or a blend of techniques, audiences are audiences and they have shown up at the theater or cinema so they can experience and enjoy your story. New to this fifth edition: Four new scene-by-scene acting analyses of animated feature films: *Flee*, *Soul*, *Porco Rosso*, and *The Triplets of Belleville*. A comprehensive and updated section titled *Classroom Notes* which includes a segment on experimental animation, a brief history of acting training for actors, and guidance on Motion and Performance Capture technology. Updated online database of Hooks' previous film analyses, all in one place. **Acting for Animators** is essential reading for all students and teachers of animation courses.

Acting for Animators Ed Hooks, 2017-07-31 Ed Hooks essential acting guidebook for animators has been fully revised and updated in this 4th edition. He speaks directly to animators instead of stage or screen actors. **Acting for Animators** is an invaluable primer for beginner animators and a useful reference for experienced pros. New to this fourth edition: 6 new scene-by-scene acting analyses of animated feature films including *Zootopia* and *The Little Prince*; an annotated analysis of Walt Disney's famous 1935 memo to Don Graham regarding how best to train animators; advice to the animator about how best to perform visual references; a chapter on Virtual Reality; an online database of Ed's previous film analyses, all in one place.

Craft Notes for Animators Ed Hooks, 2016-12-01 If Disney's *Snow White and the Seven Dwarfs* represented the Animation industry's infancy, Ed Hooks thinks that the current production line of big budget features is its artistically awkward adolescence. While a well-funded marketing machine can conceal structural flaws, uneven performances, and superfluous characters, the importance of crafted storytelling will only grow in importance as animation becomes a broader, more accessible art form. *Craft Notes for Animators* analyses specific films including *Frozen* and *Despicable Me* to explain the secrets of creating truthful stories and believable characters. It is an essential primer for the tomorrow's industry leaders and animation artists.
