Social Media Marketing on Instagram. Exploration of Strategic Perspectives Lisa Jessen,2018-06-20 Master s Thesis from the year 2018 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 7 University of Potsdam language English abstract With 800 million users worldwide Instagram is one of the world s leading social media platforms The reason for the increasing relevance of Instagram is its mobile local social and visual character which reflects how individuals are currently using social media and will continue to do so in the future Instagram s combination of emotional visual content story telling and interaction with the community also makes it a platform that allows brands to differentiate themselves from others to become unique in what are often very saturated markets While Instagram is a new application and previous research focuses mainly on long established social media platforms such as Facebook this thesis

aims to explore the various strategic perspectives of successful social media marketing on Instagram by developing a theoretical framework and presenting the practical strategies of three very different organisations in a multiple case study design. The framework and the case studies prove that the five identified social media dimensions: content marketing, engagement marketing, influencer marketing, hashtags, and Instagram advertising, are applied in practice but are adapted very individually on each organisation, its goals, and its target group.

An Introduction to Content Marketing Robert Heller, 2022-10-06 Seminar paper from the year 2020 in the subject Business economics, Offline Marketing and Online Marketing, grade 1.7, University of Applied Sciences Zwickau, Fakultät Sprachen, language English. Abstract: Content Marketing has become a buzzword for Online Marketers. It gets more attention than ever before, and you can say it is a trend. Content Marketing is in. It is good content. Content that has a high quality, is relevant, understands the users, and speaks their language. Content that creates value and creates a dialogue between the users and the company. The following pages will tell you a little more in detail about how you can create better content for your audience and also why you should do so. The structure and most of the content are based on the book Think Content by Miriam Heller. It will help make the internet a better place, little by little.
