

## Explicit Teaching

---

- We can define explicit teaching as focusing on language forms presentation, explain the grammar rules and practice through drilling.
- It equates language to grammar mastery and accurate usage and create bored, disaffected students who can produce correct forms on exercises and tests, but consistently make errors when they try to use the language in context.
- In explicit teaching, learners are aware of the fact that they are learning something, they try to understand the rules on purpose.
- Giving the rules upfront or eliciting them after a text do not change the type of instruction that is explicit.
