Ballistics Simulation and Simulation Work and Progress Michael J. Chinni,1991 *High Performance Parallelism Pearls Volume One* James Reinders,James Jeffers,2014-11-04 High Performance Parallelism Pearls shows how to leverage parallelism on processors and coprocessors with the same programming illustrating the most effective ways to better tap the computational potential of systems with Intel Xeon Phi coprocessors and Intel Xeon processors or other multicore processors The book includes examples of successful programming efforts drawn from across industries and domains such as chemistry engineering and environmental science Each chapter in this edited work includes detailed explanations of the programming techniques used while showing high performance results on both Intel Xeon Phi coprocessors and multicore processors Learn from dozens of new examples and case studies illustrating success stories demonstrating not just the features of these powerful systems but also how to leverage parallelism across these heterogeneous systems Promotes consistent standards based programming showing in detail how to code for high performance on multicore processors and Intel Xeon Phi™ Examples from multiple vertical domains illustrating parallel optimizations to modernize real world codes Source code available for download to facilitate further exploration *Military, Government and Aerospace Simulation* Michael J. Chinni,1997 The Proceedings of the 17th Annual Conference of China Electrotechnical Society Kaigui Xie,Jianlin Hu,Qingxin Yang,Jian Li,2023-03-30 This book gathers outstanding papers presented at the 17th Annual Conference of China Electrotechnical Society organized by China Electrotechnical Society CES held in Beijing China from September 17 to 18 2022 It covers topics such as electrical technology power systems electromagnetic emission technology and electrical equipment It introduces the innovative solutions that combine ideas from multiple disciplines The book is very much helpful and useful for the researchers engineers practitioners research students and interested readers Program Solicitation ,1989 *Advanced and Emerging Polybenzoxazine Science and Technology* Hatsuo Ishida,Pablo Froimowicz,2017-01-18 *Advanced and Emerging Polybenzoxazine Science and Technology* introduces advanced topics of benzoxazine resins and polybenzoxazines as presented through the collaboration of leading experts in the benzoxazine community representing the authoritative introduction to the subjects Broad topics covered include the recent development and improved understanding of the subjects including low temperature cure aerogels and carbon aerogels smart chemistry in fire retarding materials and coatings metal containing benzoxazines rational design of advanced properties and materials from natural renew In the past twenty years the number of papers on polybenzoxazine has continuously increased at an exponential rate During the past three years the number of papers published is more than the previous 17 years combined The material is now part of only a few successfully commercialized polymers in the past 35 years Therefore interest in this material in both academia and industry is very strong Includes the latest advancements in benzoxazine chemistry Describes advanced materials such as aerogels carbons smart coatings nanofibers and shape memory materials Includes additional characterization data and

techniques such as FT IR Raman NMR DSC and TGA analyses

Advances in Guidance, Navigation and Control Liang Yan, Haibin Duan, Yimin Deng, 2025-02-27 This book features the latest theoretical results and techniques in the field of guidance navigation and control GNC of vehicles and aircrafts It covers a wide range of topics including but not limited to intelligent computing communication and control new methods of navigation estimation and tracking control of multiple moving objects manned and autonomous unmanned systems guidance navigation and control of miniature aircraft and sensor systems for guidance navigation and control etc Presenting recent advances in the form of illustrations tables and text it also provides detailed information of a number of the studies to offer readers insights for their own research In addition the book addresses fundamental concepts and studies in the development of GNC making it a valuable resource for both beginners and researchers wanting to further their understanding of guidance navigation and control

BAER, JEROME M. FRANKLE, ARMY BALLISTIC RESEARCH LAB ABERDEEN PROVING GROUND MD., 1962 When non conventional guns are to be considered or when detailed design information is required interior ballistic calculations become more difficult and time consuming To deal with these problems the equations which describe the interior ballistic performance of guns and gun like

weapons have been programmed for the high speed digital computers available at the Ballistic Research laboratories The major innovation contained in the equations derived in this report is the provision for use of propellant charges made up of several propellants of different chemical compositions and different granulations Results obtained by the method described in this report compare favorably with those of other interior ballistic systems In addition considerably more detail is obtained in far less time A comparison with experimental data from well instrumented gun firings is also presented to demonstrate the validity of this method of computation
