Bayesian Reasoning In Data Analysis A Critical Introduction:

Bayesian Reasoning in Data Analysis Giulio D'Agostini,2003 A multi level introduction to Bayesian reasoning The basic ideas of this approach to the quantification of uncertainty are presented using examples from research and everyday life Applications covered include parametric inference combination of results comparison of hypotheses and more

Mathematical Underpinnings of Analytics Peter Grindrod,2014-11-27 Analytics is the application of mathematical and statistical concepts to large data sets so as to distil insights that offer the owner some options for action and competitive advantage or value This makes it the most desirable and valuable part of big data science Driven by the increased data capture from digital platforms commercial fields are becoming data rich and analytics is growing in many sectors This book presents analytics within a framework of mathematical theory and concepts building upon firm theory and foundations of probability theory graphs and networks random matrices linear algebra optimization forecasting discrete dynamical systems and more Following on from the theoretical considerations applications are given to data from commercially relevant interests supermarket baskets loyalty cards mobile phone call records smart meters omic data sales promotions social media and microblogging Each chapter tackles a topic in analytics social networks and digital marketing forecasting clustering and segmentation inverse problems Markov models of behavioural changes multiple hypothesis testing and decision making and so on Chapters start with background mathematical theory explained with a strong narrative and then give way to practical considerations and then to exemplar applications Exercises and solutions external data resources and suggestions for project work are given The book includes an appendix giving a crash course in Bayesian reasoning for both ease and completeness

Mathematics and Archaeology Juan A. Barcelo,Igor Bogdanovic,2015-06-08 Although many archaeologists have a good understanding of the basics in computer science statistics geostatistics modeling and data mining more literature is needed about the advanced analysis in these areas This book aids archaeologists in learning more advanced tools and methods while also helping mathematicians statisticians and computer **Cognitive Computing for Big Data Systems Over IoT** Arun Kumar Sangaiah,Arun Kumar Thangavelu,Venkatesan Meenakshi Sundaram,2017-12-30 This book brings a high level of fluidity to analytics and addresses recent trends innovative ideas challenges and cognitive computing solutions in big data and the Internet of Things IoT It explores domain knowledge data science reasoning and cognitive methods in the context of the IoT extending current data science approaches by incorporating insights from experts as well as a notion of artificial intelligence and performing inferences on the knowledge The book provides a comprehensive overview of the constituent paradigms underlying cognitive computing methods which illustrate the increased focus on big data in IoT problems as they evolve It includes novel in depth fundamental research contributions from a methodological application in data science accomplishing sustainable solution for the future perspective Mainly focusing on the design of the best cognitive embedded data science technologies to process and analyze the large amount of data collected through the IoT and aid better decision

making the book discusses adapting decision making approaches under cognitive computing paradigms to demonstrate how the proposed procedures as well as big data and IoT problems can be handled in practice This book is a valuable resource for scientists professionals researchers and academicians dealing with the new challenges and advances in the specific areas of cognitive computing and data science approaches

Artificial Neural Networks - ICANN 2009 Cesare Alippi, Marios Polycarpou, Christos Panayiotou, Georgios Ellinas, 2009-09-03 This volume is part of the two volume proceedings of the 19th International Conference on Artificial Neural Networks ICANN 2009 which was held in Cyprus during September 14-17 2009 The ICANN conference is an annual meeting sponsored by the European Neural Network Society ENNS in cooperation with the International Neural Network Society INNS and the Japanese Neural Network Society JNNS ICANN 2009 was technically sponsored by the IEEE Computational Intelligence Society This series of conferences has been held annually since 1991 in various European countries and covers the field of neurocomputing learning systems and related areas Artificial neural networks provide an information processing structure inspired by biological nervous systems They consist of a large number of highly interconnected processing elements with the capability of learning by example The field of artificial neural networks has evolved significantly in the last two decades with active participation from diverse fields such as engineering computer science mathematics artificial intelligence system theory biology operations research and neuroscience Artificial neural networks have been widely applied for pattern recognition control optimization image processing classification signal processing etc

Jet Physics at the LHC Klaus Rabbertz, 2016-10-11 This book reviews the latest experimental results on jet physics from proton-proton collisions at the LHC Jets allow to determine the strong coupling constant over a wide range of energies up to the highest ones possible so far and to constrain the gluon parton distribution of the proton both of which are important uncertainties on theory predictions in general and for the Higgs boson in particular A novel approach in this book is to categorize the examined quantities according to the types of absolute ratio or shape measurements and to explain in detail the advantages and differences Including numerous illustrations and tables the physics message and impact of each observable is clearly elaborated

Hybrid Intelligence for Social Networks Hema Banati, Siddhartha Bhattacharyya, Ashish Mani, Mario Köppen, 2017-11-28 This book explains aspects of social networks varying from development and application of new artificial intelligence and computational intelligence techniques for social networks to understanding the impact of social networks Chapters 1 and 2 deal with the basic strategies towards social networks such as mining text from such networks and applying social network metrics using a hybrid approach Chaps 3 to 8 focus on the prime research areas in social networks community detection influence maximization and opinion mining Chapter 9 to 13 concentrate on studying the impact and use of social networks in society primarily in education commerce and crowd sourcing The contributions provide a multidimensional approach and the book will serve graduate students and researchers as a reference in computer science electronics engineering communications and information technology

Evaluating

Measurement Accuracy Semyon G. Rabinovich, 2009-12-11 Evaluating Measurement Accuracy is intended for anyone who is concerned with measurements in any field of science or technology It reflects the latest developments in metrology and offers new results but is designed to be accessible to readers at different levels meteorologists engineers and experimental scientists who use measurements as tools in their professions graduate and undergraduate students in the natural sciences and engineering and technicians performing complex measurements in industry quality control and trade The material of the book is presented from the practical perspective and offers solutions and recommendations for problems that arise in conducting real life measurements This inclusion is a notable and unique aspect of this title as complex measurements done in industry and trade are often neglected in metrological literature leaving the practitioners of these measurements to devise their own ad hoc techniques
