Sargeant,Richard Flory,2013-08-15 An exploration of the global growth and social and political impact of Pentecostalism **Black Damage** Femi Akomolafe,2016-07-04 Africa and black communities across the world are undoubtedly poor and dysfunctional Political and economic experts have attributed Africa s problems to factors such as corruption and the absence of strong institutions The dysfunctionality in African diaspora are usually attributed to broken family structure This book demonstrates however that these factors are not the causes of Africa s and its diasporas woes but are symptoms of more fundamental problems Using empirical and qualitative studies Black Damage highlights the origins of the endless socio economic miseries of Africa and global black communities It shows that the plight of Africa and its diasporas are interwoven hence it addresses them concurrently Based on more than ten years of research and insight as an African living in the UK diaspora Femi Akomolafe takes readers through 500 years of history to uncover the root causes of the current predicaments of black communities across the globe Solutions are provided Corruption and Economic Growth in Africa David N. Abdulai,2023-12-28 Corruption is one of the major challenges impeding Africa s growth and development efforts and its impact is much more pronounced at this point of the continent s development trajectory Corruption has political economic and social consequences and this book argues that any efforts to help Africa grow and develop must prioritise the fight against it so that the aid and funding given for projects in the region can continue to be sustained The book also tackles the issue of national security and instability caused by corruption The author argues that progress cannot happen in countries and environments where instability exists and persists Corruption in Africa has contributed to instability and other national security challenges especially in fragile states on the continent The book starts by looking at the three major types of corruption petty grand and systemic and then goes on to address the different categories of corruption such as bureaucratic legislative political as well as public and private sector aspects It also deals with common forms of corruption as well as some of the causes such as bad governance and excessive greed to mention a few Further it critically examines how current political systems on the continent contribute to this condition The book argues that some of the solutions that have been proposed to date are not viable or have not worked in practice and through applied research offers workable solutions that policy makers African politicians academics and students of economics and development can use as a reference guide in the fight against corruption **Discrimination, Vulnerable Consumers and Financial Inclusion** Cătălin-Gabriel Stănescu,Asress Adimi Gikay,2020-12-28 This book addresses the questions of discrimination vulnerable consumers and financial inclusion in the light of the emerging legal socioeconomic and technological challenges New technologies such as artificial intelligence driven consumer credit risk assessment and Fintech platforms the changing nature of vulnerability due to the ongoing COVID 19 pandemic as well as the sophistication of digital technologies which help circumvent legal barriers and protections

necessitate the continuous study of the existing legal frameworks and measures that are capable of tackling these challenges Organized in two major parts the first addresses from multiple national angles the idea of a human rights approach to consumer law in order to replace the mantra of economic efficiency that characterizes financial services with those of human dignity and freedom from discrimination and from debt induced servitude The second tackles the challenges posed by increased usage of technology in connection with financial services which tends to solve but also creates additional issues for consumers in general and for vulnerable groups in particular
