

Implementation of various best practices related to nursing: Purposeful rounding; Bedside rounding; and Multidisciplinary rounding

### **Introduction**

It is of fundamental importance for nurses and other medical practitioners to implement best practices that have been proven to contribute to the achievement of projected outcomes. In other words, there are particular best practices such as bedside reporting, purposeful rounding, and multidisciplinary rounding that augments other nursing practices aimed at achievement of positive results. The purpose of this paper is to inform how best practices, in particular purposeful rounding, bedside reporting, and multidisciplinary rounding, can be implemented in the nursing profession. The goal of this practicum project is to enhance learning. The goal statement, project objectives, evidence-based review of the literature, methodology, resources, formative evaluation, summative evaluation, and timeline of the project are outlined in this paper.

### **Goal statement**

There are two correlated goals that I will strive to accomplish in this practicum project. First, I will be able to demonstrate skills and competency in managing a diverse population of staff and patients at the end of the practicum experience. Secondly, I will be able to work within a complex system to develop leadership abilities appropriate for the management role of nursing coordinators or night supervisors.

### **Project objectives**
