web magnetic fields are produced by electric currents the magnetic field B is defined in terms of force on moving charge in the lorentz force law magnetic field sources are essentially dipolar in nature having a north and south magnetic pole the si unit for magnetic field is the tesla which can be seen from the magnetic part of the lorentz

electric magnetic fields national institute of environmental - Oct 28 2022

web electric and magnetic fields emfs are invisible areas of energy often called radiation that are associated with the use of electrical power and various forms of natural and man made lighting learn the difference between ionizing and non ionizing radiation the electromagnetic spectrum and how emfs may affect your health
