Corruption, Institutions and Economic Development Toke S. Aidt, University of Cambridge. Faculty of Economics, 2009

Corruption, Institutions, and Fragile States Hanna Samir Kassab, Jonathan D. Rosen, 2018-12-11 This book examines the relationship between state fragility and corruption It analyzes a variety of regions throughout the world including Latin America Central Asia and the Middle East Africa Central America and Mexico South America and Russia States that are plagued by high levels of state fragility and corruption facilitate illicit activities and other criminal enterprises

Challenges to Democratic Governance in Developing Countries Gedeon Mudacumura, Göktuğ Morçöl, 2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries statistics show that the majority of these countries have not yet achieved significant improvements in living standards While some regions make strides towards improving the living conditions of their citizens Sub Saharan Africa for instance is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries As a result the institutional foundations of these countries are weakened public funds are misappropriated and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries This book investigates the problems of democratic governance particularly as they relate to corruption and also whether democracy should be based on universal principles or local context and historical factors It also analyses the rule of law in promoting democratic governance and curbing corruption and if governmental non governmental organizations and civil societies are effective in promoting democratic governance and curbing corruption This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries It is premised on the importance of bridging theory and practice which has been lacking in most local and international development publications making of interest to scholars and policy makers alike concerned with public administration in developing countries

Corruption: An Impediment to Development , Institutions, Governance and the Control of Corruption Kaushik Basu, Tito Cordella, 2018-04-04 This book considers how emerging economies around the world face the challenge of building good institutions and effective governance since so much of economic development depends on having these in place The promotion of shared prosperity and the battle against poverty require interventions to reach out to the poor and the disadvantaged Yet time and again we have seen such effort foiled or diminished by corruption and leakage The creation of good governance and institutions and structures to combat corruption require determination and passion but also intricate design rooted in data analysis and research In this book leading

researchers from around the world bring to the table some of the best available ideas to help create better governance structures design laws for corruption control and nurture good institutions African Economic Development Steven Langdon, Archibald R.M. Ritter, Yiagadeesen Samy, 2018-03-05 Sub Saharan Africa is at a turning point The barriers to economic growth seen in the 1980 2000 era are disappearing and new optimism is spreading However difficult goals of eliminating poverty achieving equity and overcoming environmental threats continue This much needed and insightful textbook has been written to help us understand this combination of emerging improvements and significant challenges Opening with an analysis of the main theories relating to development in Sub Saharan Africa the book explores all the key issues including Human development Rapid urbanization Structural and gender dimensions Sustainable development and environmental issues and Africa's role in the world economy The authors use economic tools and concepts throughout in a way that makes them accessible to students without an economics background Readers are also aided by a wide range of case studies on the ground examples and statistical information which provide a detailed analysis of each topic This text is also accompanied by an e resource featuring additional sources for students and instructors African Economic Development is a clear and comprehensive textbook suitable for courses on African economic development development economics African studies and development studies *The Fragility of the Lebanese State* Natalie Ann Ghosn, Hanna Samir Kassab, 2024-08-26 In 2024 Lebanon entered the fifth year of a crippling economic crisis that has decimated the value of the Lebanese pound crippled its medical and education systems and limited the state provision of essential public services such as electricity which is not available for more than a few hours a day by state provision While all those living in Lebanon feel the effects of these dire circumstances those from marginalized communities such as migrant and domestic workers the elderly children the LGBTQ community people with disabilities or poor health etc have been disproportionately affected To add fuel to the fire the already dire refugee situation in Lebanon has been exasperated by one national crisis after another from the Beirut Blast of August 4 2020 to the COVID 19 Pandemic to government collapse and finally the rapid devaluation of the Lebanese Pound LBP There have been many effects among the most dire is the migration of the highly educated Lebanese citizenry from Lebanon to third countries The substantial brain drain from Lebanon is likely to have a significant impact on the country's future for generations to come *The Fragility of the Lebanese State* explores the causes and potential solutions of this crisis **IAUE Journal of Social Sciences** ,2017 **An Introduction to Institutional Change, Corruption and Economic Growth** Alejandro Díaz-Bautista, 2001 Cambodia's Economic Development and History Sophal Ear, 1995 **The Corrupt Institutions of Development Economics and Its Shadow Professoriate** Bryane Michael, 2022 A shadow professoriate influences an increasing amount of development economics activity Badly conceived hiring pay and promotion rules as well as the money seeking politics institutionalizing these rules allow self interested development economists to use its services and join its ranks My essay uses tools from institutional economics to understand corruption and from the institutional

corruption literature to assess the impacts of this shadow professorate on the economic development discipline The literature points to a 7 part test useful for identifying such corrupt research Easily over 30 000 pseudographical ghostwriters predatory journal editors and unqualified development workers each year pen articles which academics and development workers can rely on less and less distorting the development economics discipline They create new markets for paper mills in developing countries generating over 1 billion in wages each year and oil career ladders for over 15 000 academics government officials and development workers They also divert at least 16 billion resources from formal academic and development institutions and agents resulting in damages easily exceeding 200 billion and probably more

The Korean Journal of Policy Studies ,2015 Social Traps and Social Trust Michael A. Cowan,2021-01-07 The articles in this special issue of the New England Journal of Public Policy are unusual in two respects First they reflect the practical wisdom of seasoned actors rather than the theoretical knowledge of academicians The typically unexamined assumption of the academy is that good practice in the world is simply the application of sound theory from the academy It does not take long in the public arena however to discover that leaders there are not applying theory from the academy to the decisions they face Rather they base their interventions on what they have learned about people organizations conflict race and politics in the rough and tumble of living in the world Their working understandings may be valuably leavened by theory but are not guided primarily by it Second the authors were not separate individuals working on isolated issues like children engaged in parallel play but rather partners in a fluid informal collaborative social action network operating in an environment of constantly shifting challenges and possibilities for change The authors are not a collection of Is they are a we They decided pragmatically to connect their power their political and financial and social capital at critical moments to accomplish shared goals The network grew more powerful in the process becoming more than the sum of its organizational parts This volume is ours as was the collective action out of which it emerged Like a choir s songs its articles give voice to a group s experiences Each is a part of a larger whole Whenever I speak about how Hurricane Katrina changed New Orleans an audience member invariably asks Would the changes you described have occurred without a hurricane The simple answer is no but a fuller response is required to do justice to the situation Nature can create temporary vacuums but it cannot fill them The coalition led public meetings action campaigns election fights and legislative lobbying recounted here and the transformations they caused might not have happened in the wake of the great storm But they did In these pages you will meet some of those whose practical wisdom courage and integrity drove those changes
