Cultures In Contrast 2nd Edition :

Cultures in Contrast Myra Shulman, 2009 *Cultures in Contrast* is designed for students who are entering college or university life in the 21st century. It provides challenging readings and comprehension questions in every unit accompanied by updated suggested films and additional readings. In each unit students move from a general exploration of their beliefs to an analysis of a case study, a discussion of readings, and finally a specific choice of a coping strategy for a hypothetical dilemma. The case studies and readings while providing various perspectives on life in the United States are also meant to strengthen students' cultural self-awareness. The second edition features a new unit on binge drinking which has been added to recognize one of the most serious problems on college campuses today. Today more than ever students on college campuses are expected to have a sensitivity to and respect for diversity as well as a heightened awareness of individual rights and responsibilities. This text attempts to prepare students for this academic environment. *Cultures in Contrast* offers these students a means for analyzing and evaluating the complex social and moral issues that young adults throughout the world have to deal with.

Cultures in Contrast Myra Shulman, 1998-03 Presents case studies of situations in which international students at universities in the U.S. find themselves.

Languages and Cultures in Contrast and Comparison María de los Ángeles Gómez González, J. Lachlan Mackenzie, Elsa M. González Álvarez, 2008-06-26 This volume explores various hitherto under-researched relationships between languages and their discourse-cultural settings. The first two sections analyze the complex interplay between lexico-grammatical organization and communicative contexts. Part I focuses on structural options in syntax deepening the analysis of information packaging strategies. Part II turns to lexical studies covering such matters as human perception and emotion, the psychological understanding of home and abroad, the development of children's emotional life and the relation between lexical choice and sexual orientation. The final chapters consider how new techniques of contrastive linguistics and pragmatics are contributing to the primary field of application for contrastive analysis: language teaching and learning. The book will be of special interest to scholars and students of linguistics, discourse analysis, and cultural studies, and to those entrusted with teaching European languages and cultures. The major languages covered are Akan, Dutch, English, Finnish, French, German, Italian, Norwegian, Spanish, and Swedish.

Ijatuyi-Morphé,2014-01-30 This well crafted book probes the key dimensions of Africa's existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa's social and religious quest Beyond split explanations of external versus internal factors e.g. colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality politics and destinies vis vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africans quest today *Contrast and Context in New Guinea Culture* Ernest Brandewie,1981 *Introduction and preliminary history, 2nd ed* Heinrich

taken for granted connections tied to the everyday meaningful use of artefacts The understanding of culture as emerging in a process of learning open up for new understandings which is useful for researchers practitioners and students interested in dynamic studies of culture and cultural studies of organisations The new approach goes beyond culture as a static essentialist entity and open for our possibility to learn in organisations across national cultures across ethnicity and across the apparently insurmountable local educational differences which makes it difficult for people to communicate working together in an increasingly globalized world The empirical examples are mainly drawn from organisations of education and science which are melting pots of cultural encounters *Medieval Culture* Walther Immanuel Brandt,1930 Man and Culture Clark Wissler,1923 1923 A group of lectures given by Wissler at the State Universities of Michigan Iowa Nebraska and Kansas and also before the Anthropological Society of St Louis and the Galton Society of New York The object of these lectures was to present the problems and scope of contemporary anthropology and recognizing that the most pertinent question before us as a people is the relation of civilization to man the emphasis in these pages has been placed upon culture and its biological background Primitive Culture: Animism (continued) Edward Burnett Tylor,1874 America and French Culture, 1750-1848 Howard Mumford Jones,1927 Flax Culture and Preparation Fred Bradbury,1921
