What Is Culture?

- Despite hundreds of subtly different definitions of “culture” in the anthropological literature, this situation does not hobble anthropology. It is a sign of a vigorous discipline.
- English scholar Sir Edward B. Tylor (1832–1917) was a founding figure of cultural anthropology. Tylor defined culture as “the complex whole which includes knowledge, belief, art, law, morals, custom, and any other capabilities acquired by man as a member of society” (1871, p. 1).

Attention to these cultural processes shows how culture is dynamic and always changing.
 - Cultural anthropologists pay close attention to relations of power and inequality in their analyses of cultural processes. Understanding the changing culture of any
